# PRASADI SOUVENIR

## 2075

### EDITORIAL

It is a matter of happiness to come up with the latest issue of Prasadi Academy souvenir i.e 'PRASADI SOUVENIR 2075'. Thanks to the persistent efforts of the students and the faculties for bringing out this souvenir into its final form. It has covered lots of topics ranging from messages from the honorable dignitaries of our nation, from the Chief, interview of a celebrity, photographs, creative articles, poems, memoirs and experiences.

In this connection, with the purpose of making the students realize their potentiality apart from their academic aspect, this souvenir has provided them a ground to bring out their true aspects where upon, the students have opened up themselves to their fullest allowing their innovative ideas, feelings, emotions, memories flow throughout this souvenir. Portraying the moments of their two academic sessions in Prasadi, in a nostalgic tone, is a beauty of this book. It would not be otherwise if we say, 'Publication of the souvenir has been an unalienable part of Prasadians'.

Finally, thanks are due to our seniors for maintaining of the magazine's publication over the past 19 years. We are equally indebted to the students and the concerned personalities who have worked very hard to keep the academic faculties, students and the producing the souvenir's culture intact. This souvenir wouldn't have been possible without the support and encouragement of our respected Chief Sir. Once again, thanks to all of the helping hands for their every support in the final preparation of this souvenir.

### CONTENTS

Creative Activity	5-59
Interview	60-66
Autobiography	67-227
Autobiography B5	68-80
Autobiography B6	81-93
Autobiography B7	93-106
Autobiography B8	107-119
Autobiography B12	120-129

*The Prime Minister*

KATHMANDU  
NEPAL

## PRIME MINISTER

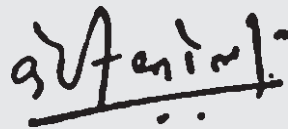

It is a pleasure to know that Prasadi Academy Secondary School, Tafalhon, Lalitpur is celebrating its 20<sup>th</sup> anniversary and publishing a Souvenir to mark the milestone. I take this occasion to extend my best wishes to the school and everyone involved in it to ensure excellence in the secondary education.

A prosperous nation is possible only when its citizens and communities have access to quality education. Educated and awoken citizens can contribute their best efforts in nation building. To achieve its goal of Prosperous Nepal, Happy Nepali, the government has adopted a policy to support endeavors to build a vibrant learning environment.

*The Prasadi Souvenir 2075*, I hope, will be of value in documenting a broad spectrum of issues in the institute's development, its turning points, major activities, student's creativity and experiences.

I, personally and on behalf of the Government of Nepal, once again express my best wishes for the success of the 20<sup>th</sup> anniversary function and publication of the Souvenir.

# Message

It is pleasure to learn Prasadi Academy Secondary School is publishing its **Prasadi Souvenir 2075** entailing students' academic and creative writings. On this occasion, I would like to extend my voice of congratulations and good wishes to the school family.

It is the Souvenir that allows students to unfold their suppressed emotions and impulses too. I am mindful of the significance of education that provides inner light to human beings and helps in human becoming. Life without education is like that of flower without incense. It has been invested a lot on education by government and private sectors and focused on result only. I hope that the Privately funded Schools are committed to run as per the spirit of Free and compulsory education Act- 2075.

I would like to appreciate the school family who played the vital role for socio economic development of the country through quality education. I hope that this Souvenir will significantly contribute to communicating occupational and educational research among educationists, policy makers allowing them to share information and learn from each other. This new publication will really be souvenir achieving its intended goals.

I wish you all the best

Thank You

Girirajmani Pokharel

## Message

It is a great pleasure for me to know that Prasadi Academy Secondary School, Lalitpur is going to publish its Souvenir which is full of expression made by its students.

On the completion of its 20 years excellence of service with high commitment to provide quality education, it would be a memorable history in the academic field.

I am glad to express my feeling on your institution's progress and prosperity. My wish goes to further success and higher achievement on coming days. Student's creative creation and through their brief introduction, the book would be milestone and strong bridge. Therefore, I like to provide the message of gratitude and success.

I look forward your every success.

Thank You.

(Prof. Dr. Chandra Mani Paudel)

## YOU TRULY NEVER LEAVE HIGH SCHOOL

High school is not just a place where you'll learn answers to a lot of life's questions; but also a phrase which will make you question a lot of life's answers. High school is all about your friends; the life sharing experiences you have had together. High school is your first real crush, unusual dares, dances and dramas. People leave school, drift away, meet new friends and hang out at new places. That's normal; but it's also normal to get a bit sentimental about knowing what you left behind. Your friends are everything to you and you're happy doing your familiar things "at your familiar hang-outs." You don't want it all to end. But what can you do? You can't stop time. It went fast just like our parents said it would. At the beginning Prasadi might have been hard, annoying, difficult, awkward and irritating but admit it, you're going to miss it because no matter how much you might want to, you can't return. Maybe we were all quick to count the days that we forgot to make the days count. Everything, eventually ends whether you want or not. As much as I've looked forward to this day, I've always disliked endings. But endings are inevitable, leaves fall and you close the book. Today is one of those days for all of us, being an ex-Prasadian from a Prasadian. I, now think "How lucky I was to be a part of Prasadi

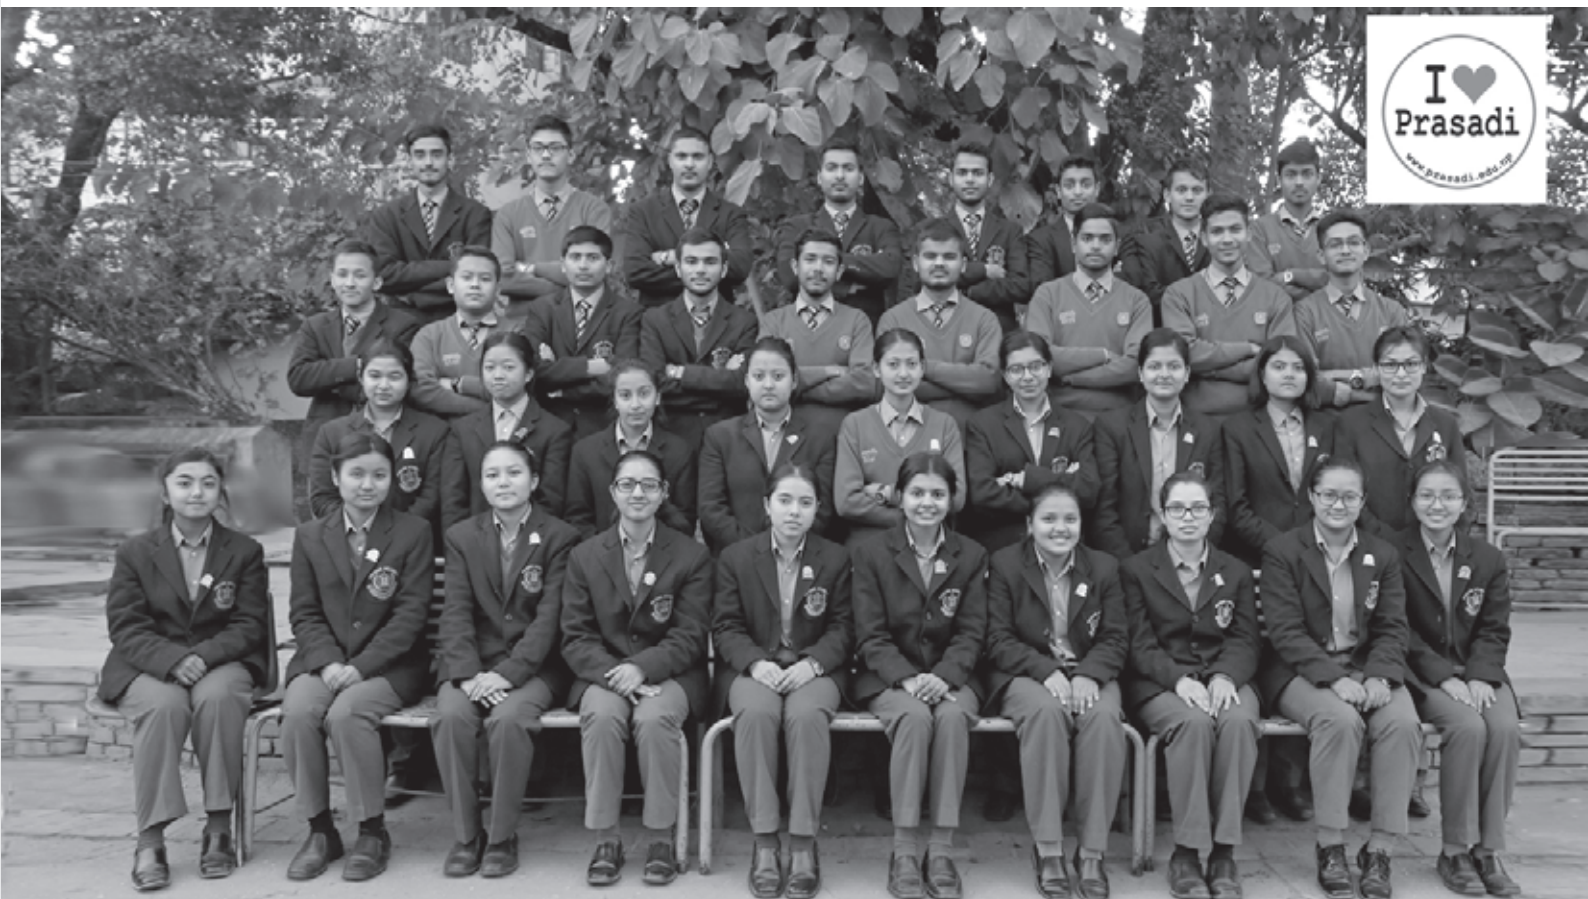

Academy's family, to have something that makes saying goodbye so hard.

**Archana Subedi**  
M11

### PRASADI FOR ME

- P- Place where care is culture
- R- Rules and regulations are compulsory
- A- Amazing teachers
- S- Surprise bag checking
- A- Achievement with hard work
- D- Doing homework is a part of study
- I- I am always and will be proud for being a Prasadian.

**Bhawana Pokhrel**  
B5

## ALONE IN THE CROWD, IT'S AN INTROVERT THING...

Most of you must have been alone but only few of you might have felt lonely. I've never felt lonely when I'm alone but I find myself alone when I'm in groups or with friends. I'll break it down for you, what does it actually feel like? Just imagine. In a big crowd, everyone are talking and enjoying, but you on the other hand are also a part of the crowd by simply 'apart'. It feels like you are tied by an invisible rope, no one sees it but you can feel it. Everyone but you seem to be happy. You have so many things to say but when you try to the words just gets stuck on your throat and you can't even utter a single word. Noticing so much more than required. Then over thinking about each

and everything possible.

Thinking people are going to judge you..... Thinking at least three times even before smiling because you don't want anyone laughing at your smile, do you? Now, I know; I know I'm associating loneliness with self –consciousness but trust me that was exactly how I felt. Don't want to open up to anybody, burying my inner self so deep that even I was being unable to take myself out.

But now I'm starting to realize if I had also been a bit more open, may be, just may be, I would also be writing about friendship story if only I could have broken my shell at the right time.

**Isha Shrestha**  
**M11**

## WHY ONE SHOULD BE PROUD TO BE PRASADIANS?

“PRASADI: WHERE CARE IS CULTURE”, the slogan is not only limited in saying but applicable in every Prasadians’ life. And we must have felt the profound love and immense care from very first day of Prasadi. The very first thing that Prasadi teaches us is to respect time and to be punctual. The fact behind short break time (20 min), six periods, one period lab is just to provide optimum time for study. If you are Prasadian you must have gone through homework problems.

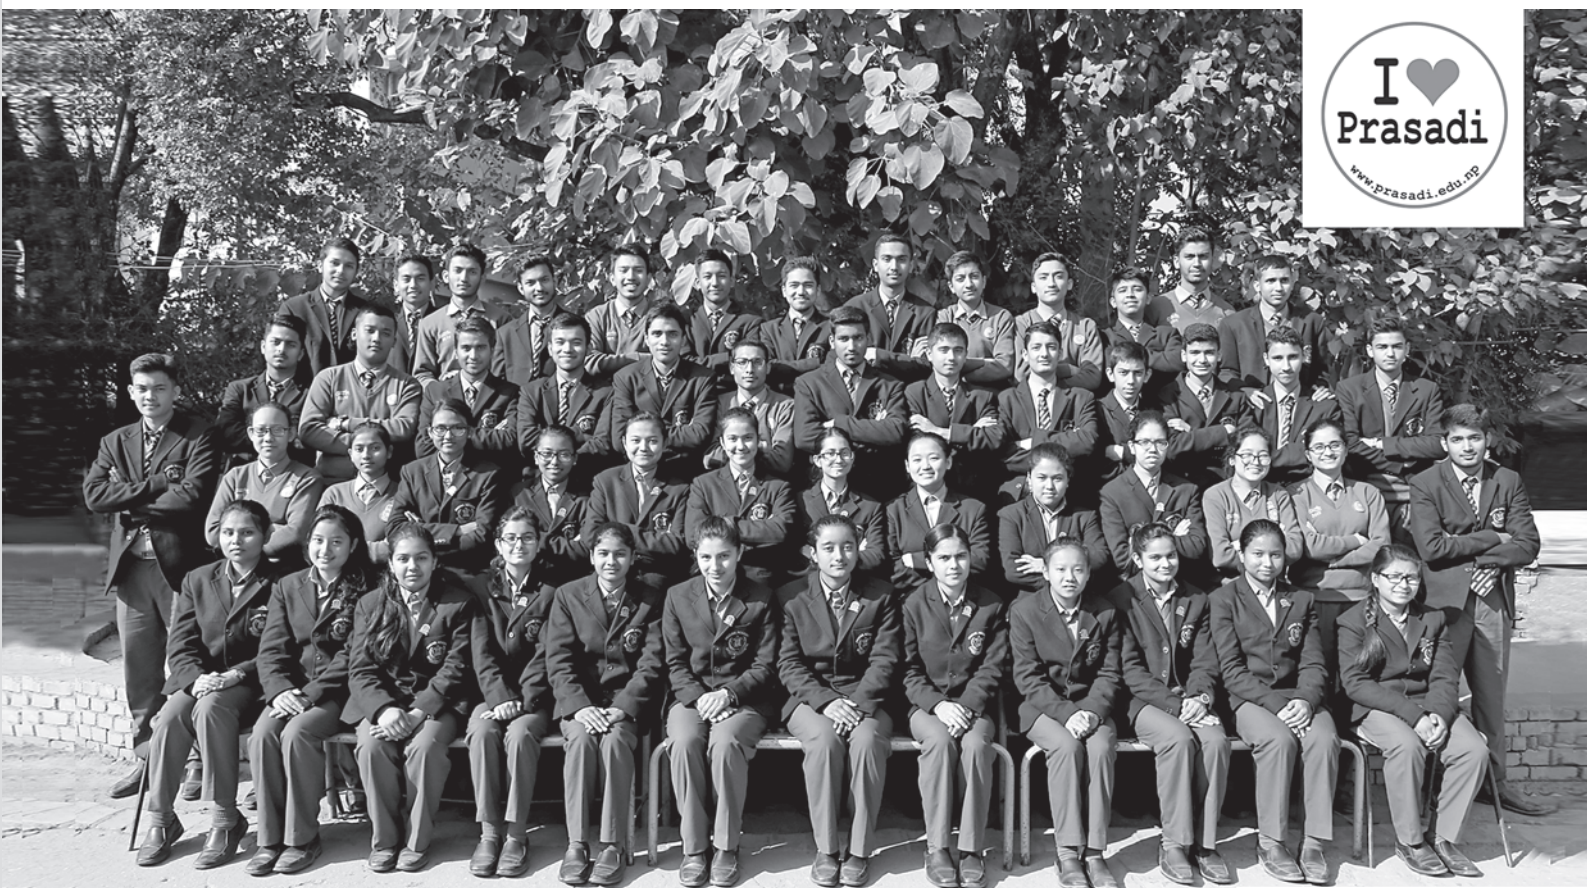

Actually the homework makes you concentrated towards your subject matter and you’ll only know its importance when you’ll be appearing in your board exams, when you can’t get your question answered and at that moment you’ll be desperately searching your homework copies and all those answers and numerical that once your teacher taught you in the class. Teachers of Prasadi are experienced, brain full of knowledge and gentle one. You cannot ignore them; you can’t sit without listening because they teach you with a lot of fun. They make the teaching and learning quite easy and effective. Many of you might be away from home but you may not feel short of your family when you are in Prasadi. Every teacher and students are like a family here and Prasadi is like a common home for all Prasadians. Every time they make you

aware of the difficult situation and guide you so that you become the best. Here, the students are very competitive waiting to get “Student of the month” certificate at least once. You must be working hard enough to get your name in top ten rank positions in your internal exam. The certificates lit the light in every student to study hard, to achieve the best. You must be familiar about limited holidays in Prasadi, classes even run on government holidays, classes on Saturdays if there is strike. But, have you ever felt the burden of syllabus like students of other schools? When I contact my friends, they say that their course is very slow and at last they teach very fast to complete the syllabus. But, here in Prasadi everyone must have felt, the teaching has always been smooth and efficient. But, yet many of us interpret Prasadi wrongly when they are not provided holidays on public events which is actually the love and care of Prasadi towards our study.

Life is all about to move ahead collecting your best experiences and rectifying your bad ones. Finally, I love Prasadi and I am proud to be a Prasadian.

**Dipesh Das**  
**B12**

## INCREDIBLE JOURNEY AND BEAUTIFUL MEMORIES IN PRASADI

When we first enrolled in Prasadi, everyone was filled up with new expectation and great beginning. Everyone had certain determination carried within them for marching ahead in their new destination. Moreover a new aim and ambition was set in everyone's soul to explore their own personality.

Discipline and management of each second was the main theme here which made us to be punctual and versatile. Competition! Competition! Competition! This word defines you in Prasadi. Everyone had their goals to show their great potentiality. It was not easy for students to have a great beginning but we never gave up, and continued to march ahead because we knew that one day we definitely would touch the path of victory. Prasadi also taught us to have faith in ourselves so that in future would have no fear and guilt.

The journey from grade XI to grade XII was incredible. I feel really blessed to get such amazing friends and such hard working teachers. Every assignment was tiresome yet very beneficial. I have collected so many memories with my friends and teachers and I will miss them all.

I'm not ready to say goodbye to Prasadi but time has come to bid goodbye. I'm really going to miss these two years in Prasadi.

**Ranjana Kumari Singh**

## MY HIGH SCHOOL

Studied here for years two  
 Would be this great I never knew  
 Made some amazing friends too  
 To teachers I show my gratitude  
 I've had my bad days and good ones  
 Felt happiness within the chats  
 Due to the support of people  
 I got second home forever "school"  
 I want to thank my teachers  
 Friends: the funniest creatures  
 Sorry to the ones I've hurt  
 Good vibes, that's what I live for  
 I will go away this year  
 But I'll leave with happy tears  
 So, this is me Deepika  
 I vow to love my school forever

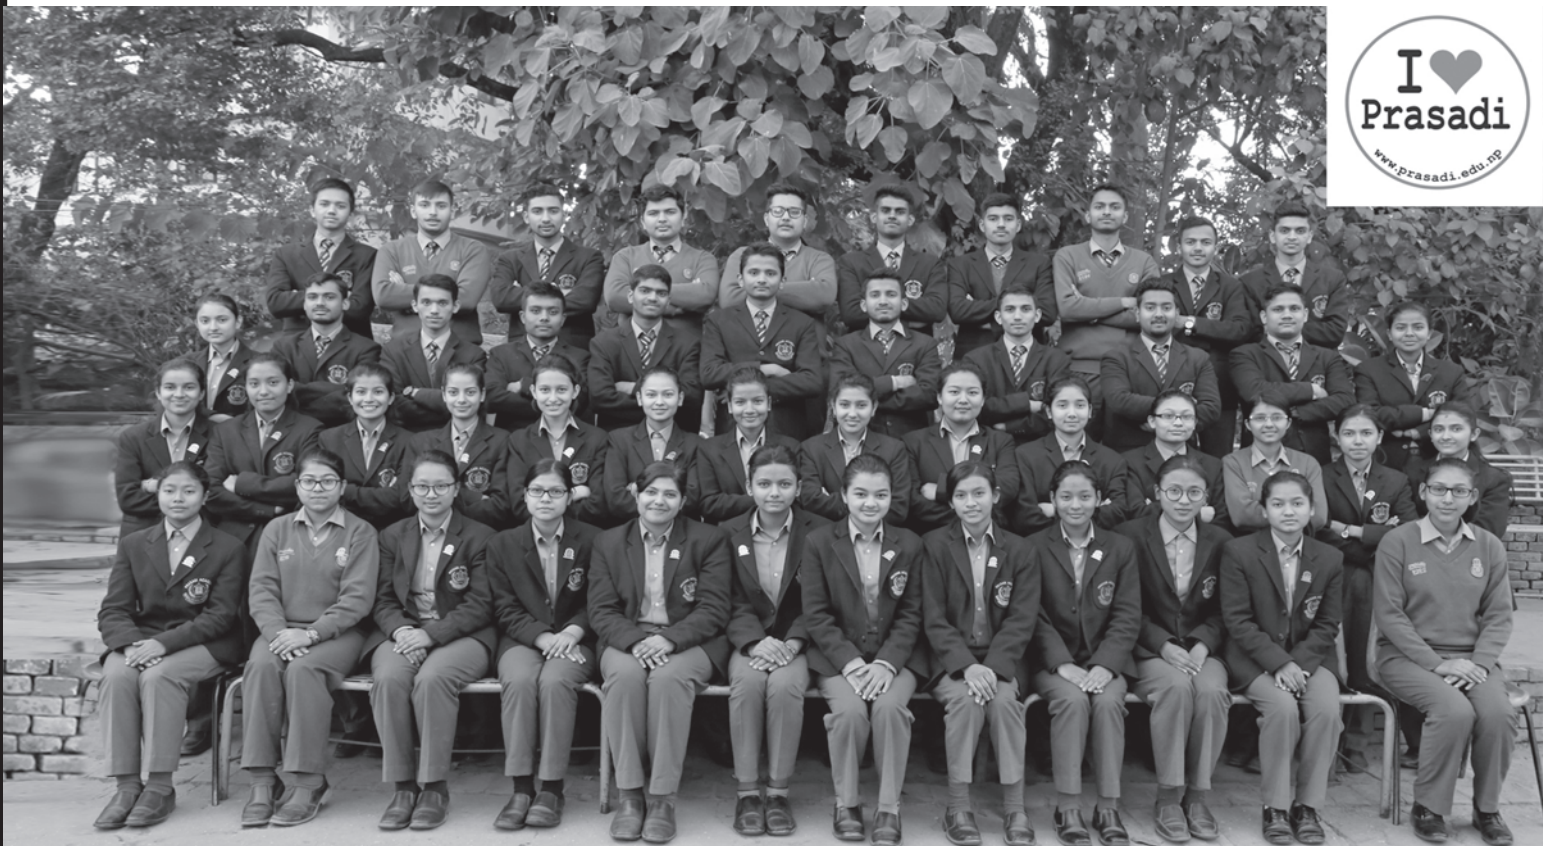

**Deepika Neupane**  
C13

## BY GONE DAYS.....

Everything is still vivid in my memory. The very first day I entered in this unknown arena. My soul was filled with great nervousness but at the same time feeling of excitement and anticipation had surrounded me. My heart was beating in the speed of light but I knew I wasn't the only one who's going through this tough situation as I am. Though a lot of different things had surrounded me, with a slight of hope and encouragement enabled me to move forward. Since that very day my new determination and my new journey began to achieve my dreams. The first few days were difficult as I was a total stranger to that place as everything was anonymous. Slowly, time taught me everything and I got familiar with everyone. Two years of this precious time passed away in a blink of eye. Now, time has come to bid goodbye because nothing is permanent. Keeping this in mind, I will always remember those glorious days of joys, days of happiness and even the days of sorrow. Those unforgettable days shall always remain in my soul till eternity and will always be cherished.

**Rojina Shah**  
B5

## WHAT DOES IT MEAN TO BE EDUCATED?

Just like a passport is a pre-requisite to travel the world, similarly, a good education is a pre-requisite to lead a meaningful life confidently. Whom, then, we call educated? The given is the definition of education given by Socrates approximately two thousand years ago.

First, those who manage well the circumstances which they encounter day by day; and those who can judge situations approximately as they arise and rarely miss the suitable course of action.

Next, those who are honorable in their dealings with all men bearing easily what is unpleasant or offensive in others and being as reasonable with their associates as is humanly possible.

Furthermore, those who hold their pleasure always under control and are not unduly overcome by their misfortunes, bearing up under them bravely and in a manner worthy of our common nature.

Most vital of all, those who are not spoiled by their success, who do not desert their true selves, but hold their ground steadfastly as wise and sober minded men, rejoicing no more in the good things that have come to them through chance than in those which through their own nature and intelligence as their since birth.

Those who have a character which is in accord, not with one of these, but with all of them., they are educated- possessed of all the virtues. -Socrates (470-399 B.C.) Ultimately, education is a progressive discovery of our own ignorance. I shall remain indebted towards Prasadi who taught us the real meaning of education and to be educated as defined by the Socrates. It inspired and encouraged us, making us realize our true potential. It has taught us the value of time and effective way of time management being punctual. Eventually, it has also taught us that there is no alternative for preparation, practice and hard work.

## TWO YEARS OF JOURNEY IN PRASADI

With great hope of learning and achieving great, many students from all over Nepal joined Prasadi Academy and so did I. It's still fresh in my mind how hard it was to grow within the boundary of rules and regulations. Those never ending assignments felt like someone's debt we never owed. Surprise bag checking made our heart pound heavily. To all the readers, yeah it feels very difficult to settle down here but you never know each and every hardship you went through were the keys for that door from

where you step out as a true Prasadian; a true man and a true woman. What you learn here in Prasadi is to find the happiness in your hard days. All those happiness, knowledge would have been hard for us to gain if we were not cared after by Prasadi. So, here in Prasadi, learn to live each and every second with happiness because at the end of session, you don't feel like leaving this place. Two years of memories all feel like blurring and fading away but all of you can do is keep it beneath your heart. Be a cultured one when you graduate from this place where care is culture.

**Linda Paija**  
B7

## MEMORIES OF BEING A PRASADIAN

I rolled out of my bed up and stretched in the direction of the sun just shining its warm golden light. The entire meadow was glowing under its morning warmth and the dew was still plainly visible on all the blades of grass nearby. The wind was more than enough to take me back to the high school reminiscence making it blooming again like the flowers in the garden.

I've seen many students being said goodbyes to school as a farewell last year and these have always delighted

me, but now as I come to the end of school year, the fear has arisen as I'll be stepping out of this school too and forever. It's hard to write when it comes to all these things. I've always heard that saying goodbyes to your loved ones has always been callous and now when this heart wrenching feeling has emerged in my heart of leaving this place it has made me realize that yes, saying goodbye to someone we love can be the toughest thing we ever do. Goodbyes are never the end.

Now, the remembrance of these two beautiful years of being a Prasadian has fully fascinated me. I

remember as I had put my steps onto the macadamized way towards my new classroom, I felt no charm or joy but the blend of agitation of endeavor controlled my heart. New faces with different articulation of joy and happiness helped me be comfortable and later the same new faces were my family. There were teachers who started invigorating us and there I started my journey in Prasadi as a high school girl rolled up with delicate feelings which with the next year coming by took in the form of strong blooming relationship.

Time passes by like a quick roll of drum. It feels like yesterday I entered the school for the first time but it's been two years with infinity alluring reminiscence ever to be cherished. I was unfolded in Prasadi slowly as I got accustomed to its surroundings. Now, I'm here, at the end of the high school. I've learnt not only the chapters here but also gained knowledge. I grew up to be what I am today.

The voyage that we began two years ago in our

boats led by our teachers has been a challenging yet a memorable one helping each other overcome all the difficulties on the way and learning with the experiences, we have lost the count of the remaining days of our beautiful journey to turn back around and away in our own worlds. That's again we say goodbye to meet again.

I feel like a part of a show which has been over from my life and there are numerous things I shall miss but the greatest happiness lies in the fact that it couldn't be more memorable than this.

I'd love to thank my friends for being with me in this beautiful phase of my life which is full of never fading memories. Thank you everyone.

I'd love to say something to my fellow juniors that life is full of obstacles and being a Prasadian it would be easy for you to overcome it. You're lucky enough to study in Prasadi and wherever you go you'll do great because you are capable of anything and everything. Good luck for your upcoming days.

**Shistata Subedi**  
M9

## IT'S TIME TO SAY GOODBYE

It is funny how we all start from the same beginning and end up in completely different places in life. My high school years are coming to an end. Next week, I'll have my last few classes, clear out my Prasadi bag for the last time and say my final goodbyes to classmates and teachers. Some people might think that graduating from high school is just the tiny chapter in the big book called 'Life', and there are more important events to come- but to me, it's a pretty huge milestone.

When I think about graduating from high school, I get a knot in the pit of my stomach. It's difficult to describe: a jumble of fears, pangs of regret and sprinkles of nervousness, with a side of excitement and expectation. There's a lot of uncertainty in the air and I suppose that's what makes it both exciting and frightening. Am I moving on to university? Should I start a job and get work

experience? The fear comes because we're afraid we might not find answers to those questions. The only thing we can do is just give everything our best effort and it will work out in the end when your hard work pays off.

The next hardest thing is parting with the teachers. There are teachers who put so much effort into their

classes, inspiring and empowering their students to learn and to succeed. It's hardest to say goodbye to those teachers. They were preparing for you to leave along. They want you to go out into the world armed with as much information as possible so that you're able to tackle all big issues. It's hard to repay a person who has made such an impact on your life. The most difficult part for me, by far, is saying goodbye to my classmates. My two years were spent building close and memorable connections with friends. Seeing anyone moving on to fulfill their

respective dreams and ambitions certainly makes me wonder if we'll ever cross paths again. It makes me regret not doing more to get to know more people at my school. The lesson here is to meet and talk with as many people as you can while you still have the opportunity. So, this is it- the very last days of life we've grown so comfortable with. Bidding farewell to high school., keeping all the great memories while still moving forward in our lives, ready to change the world as adults rather than holding on to the past. I'm Prasadian and I'm proud to be a Prasadian.

**Reeja Pradhan**  
**B7**

## BEING PRASADIAN

Time is the vehicle that runs much faster than expected without any fuel. I didn't get chance to learn from all my friends from all sections and when I realized that it's time to leave and I have no more time. These two years time were the fastest travelling one? Well, after spending my two years in Prasadi Academy, it has been like a home. Initially I and my friends spent our time doing each other's homework and assignments.

It's my good luck that I got admitted in Prasadi academy. I know you feel it as a torture for completing all your assignments in time doing all the practical sheets and preparing for exams every month. But I tell you this is the best part here. We, not only get education here, but also we learn to be responsible as well. It's the only place where enough dare to complete with time. You may wonder how.

I have answers for it. You'll experience yourself when you will attend the examinations with no preparation gaps. It interestingly makes you fast and active. You become responsible for what issues are important. Grades XI is a transit phase where students are likely to get in bad company and ruin their future. But Prasadi manages it and makes you ideal person.

Prasadi provides you to be a gentle and responsible person. You need to think when you realize Prasadi is the place that changed your life. It makes you capable to stand up in your feet. One day you are going to say proudly, 'Oh! Yes. I'm lucky enough to study here. I'm really blessed.' It makes me a real person.

On the other hand, the teachers out here are the best. We are going to miss all teachers. We were frank and we were never afraid to talk to them. We learnt a lot and your time is now.

You are not going to forget the 20 minutes break as we did. All the classes will be memorable. Finally, if you have mistakenly chosen Prasadi then it's your best mistake. You'll be proud to be Prasadian. Enjoy the days. Go ahead. You are going to achieve your success and your goal.

Best wishes from me.

Go ahead and roar 'Proud to be Prasadian'

**Chandan Chaudhary**

**B5**

## PRASADI AN UNFORGETTABLE JOURNEY!

“Prasadi Academy is shrine of learning where long cherished dream of students come true. When we are intellectually sound, morally upright and physically fit only then we can grow up to become promising and productive citizen of tomorrow. It is really possible for us to take our college to the long way and on greater height if we continuously show our spirit and all of our passion into action. Prasadi stands for the sake of change, ethics and service.” I still remember the first day of school. I along with my two friends who had registered names consecutively at the day of admission with a hope of studying in the very same section was divided into three different ones. Wow, Prasadi is full of surprises. Then I entered my section “D5”. I got really afraid because there was no one whom I knew but because of friendly teachers and classmates fear was eradicated from my mind. At the very first day I was called in front of the class by BPP sir and was praised for my proper haircut which was really short. Prasadi gave me many new and lovable friends in these two years. Doing loads of homework, strict rules, monthly tests were like burden at the beginning but my mentality to see every rule in Prasadi changed as the days went on. Every day I used to watch list of homework and used to say, “What a busy day!” Being a part of the most notorious classes “D5” and “M10” will

make me laugh every day. All the beautiful and precious memories that Prasadi has given me, will be missed each day. Teachers at Prasadi were super supportive. Fun in classes will be missed.

From two years I have learned that Prasadi creates opportunity for us and makes our life worth living. In this connection Prasadi acts unconditionally to eliminate indecision, hesitation, uncertainty and much more for betterment of our life. Prasadi is working hard to see brilliance, discipline, punctuality, adaptability, decisiveness and self-confidence in its students. Prasadi taught me that success means taking calculated risks so, accepting risks and adapting to changes is the highway of success.

**Samyat Acharya**  
M10

## BITTER HEARSAY BUT REAL TRUTH ABOUT PRASADI

My days in these two years had begun with the tension of completing home assignment. I had done lots of struggle for completing this task not only to submit but to learn from different ways. Moreover, when I told my friends that I had started my journey to Prasadi then friends laughed at me. But when I first entered here, I found it much more interesting than my home. Teachers and friends had supported me a lot in these two years.

The days at Prasadi were awesome, despite some of the bitter experiences about unexpected bag checking and all; it has given me a lot of awesome experiences. It has really been a fruitful one. The scientific, social, emotional experiences during these two years of time have taken me to a whole new level. I felt like the exhilaration of the new wisdom passed onto me. These two years were a huge quest that took a long time to do but in return gave me a lot of opportunity to increase and polish my skills. The way Prasadi cares to polish the skill and talent of students are preferably admirable.

Talking about me I've learnt a lot in these two years and I feel proud to be a part of Prasadi. It has been a great platform for toppers as well as for learners who want to

beat toppers. So, never follow the hearsay of crowd, just believe on yourself, enjoy your learning and rock your future.

Best wishes to juniors and love for teachers.

**Abhishek Rauniyar**

**M11**

## PRASADI: MY WORLD FOR TWO YEARS

All I should say it was my luck and my right decision to be a part of Prasadi Academy. It not only provides quality education but also gives opportunity for those who want to study well and pursue their aim and achieve more. I believe that studying at Prasadi opens the doors of wisdom and provides prospects to develop the students' talents, reshape their hidden potentialities. I feel privileged to have been indeed by blessings of this school.

The foremost things I learned here was the management of time properly through the inspiring lectures of Chief Sir. He was always trying to make us comfortable. No one will ever forget the surprise bag checking in two years. The journey from XI to XII had gathered provided with incredible memories for me. Here I got an opportunity to gain quality education from outstanding teachers which transfigured me that made me able to achieve my own destination.

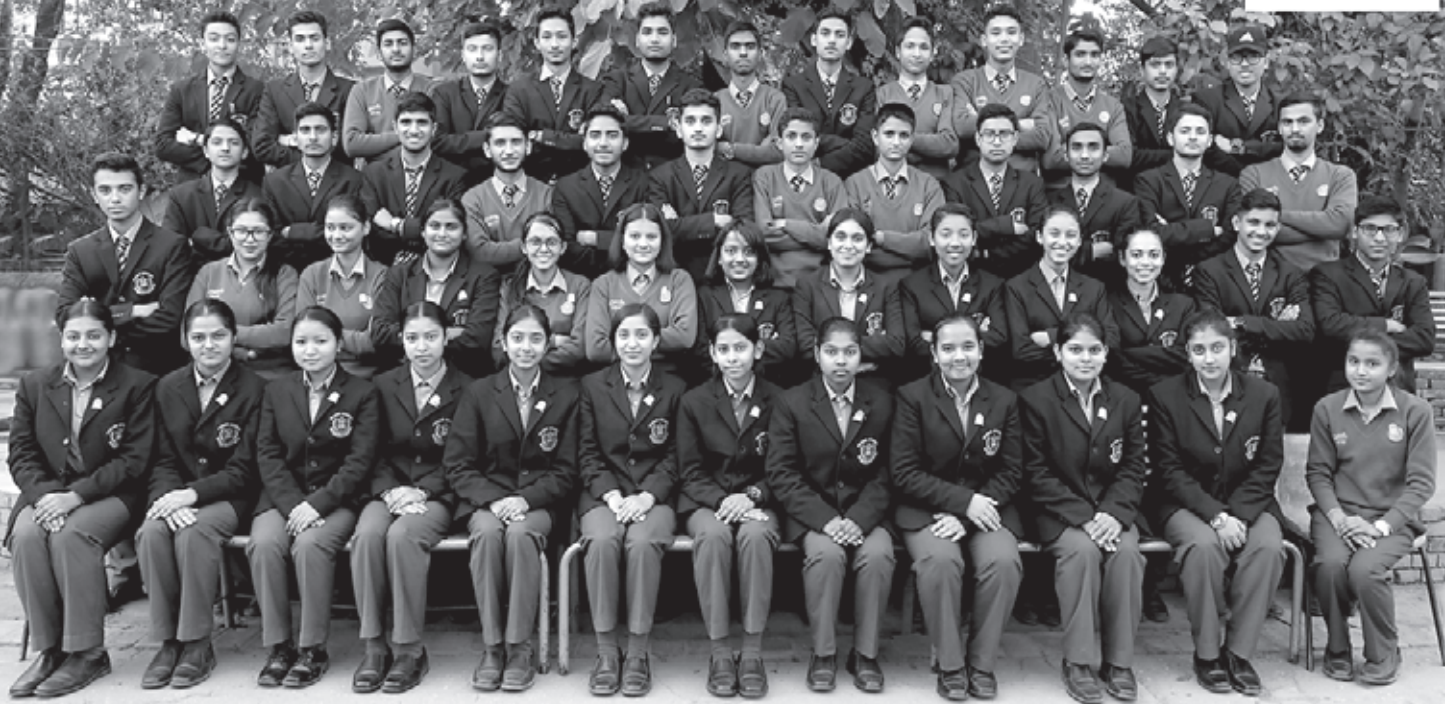

Being a Prasadian itself is a thing to be proud of and I am proud to be a part of this institute and on the top of that it has given me friends whom I treasure for life. The picnic at Tribhuvan Park added up more memories as well. Today, I am on the phase to realize how badly I am going to miss Prasadi,

teachers and friends. Now, I feel like laughing, thinking about those times when I wanted these two years to end soon. Today bidding goodbye is hard. I am not being able to say goodbye; honestly I don't want to say goodbye. **PROUD TO BE PRASADIAN!!!**

**Rishiram Yadav  
B8**

**XI Science R2**

## TIME TO BID GOODBYE

After passing the two glorious years in Prasadi Academy, now it's time to bid 'Good Bye'. It seems just yesterday when I entered the gate of Prasadi Academy for the first time. But the days have passed in a blink of eyes. The time with friends, when the talk was more and work was less, everything was easier and rose looked as if it doesn't have any thorns. Even the bitter time of those days seems sweet days and every moment was turned like a magic.

Those unexpected checking, unusual gossips and laughing, list of rules and regulations, non- stop chatting with friends, patience we maintain for holding notices, Saturday classes, annoyed faces of teachers, the picnic dance will be alive forever in my mind. It became the part of the soul, which can never be denied.

Now, it's the end of the year and also the end of our college life. Our path may divide. But memories carved in the wall of Prasadi Academy will always be like a paradise. No matter how much I write it's going to be incomplete. Nevertheless it's time to say goodbye to Prasadi, the authorities, teachers and friends who have always been there with me in this precious journey.

**Sadikshya Pandey**  
**C13**

## MOMENTS TO BE SHARED!!

Cherishing two years of schooling I often wonder can't we stay a bit longer? Can't we share some more memories with our teachers and friends? Just like time and tide waits for no one, two years passed so fast and now at the end time of this session what we have is bunch of memories to reminiscence. We met new people whom we have never seen, new faces of teachers who guided us like our parents, seniors who treated us like our brothers/sisters and school staff who took care of us like their own child. I would like to thank Prasadi and I'm proud to be a Prasadian.

Even at the worst time, I got the courage to stand up feeling proud in spite of failure because somewhere I knew I can gather myself together and again reshape to a new person and this place; this scholarly ground that I've spent my two years in, 'PRASADI ACADEMY'.

**Bhawana Pangeni**  
B6

**XI Science R3**

### **IN PRASADI....**

"This is not allowed in Prasadi" You will be familiar with if you are a Prasadian. A Prasadian's feeling can be understood only by ex- Prasadian. I can understand your sentiments, emotions for all the obligations. As now, I am going to say goodbye to Prasadi, I am realizing the importance of those obligations.

Prasadi teaches to be simple and elegant in appearance. Since if you are simple then only you can make your study, learning process simple, convert them into complex formulas, theories and concepts into a simple thing. Prasadi teaches you to improve your internal beauty, beauty of soul, heart and mind. Let's be optimistic and explore out all things that are allowed here. Let me help you. You are allowed to imagine, to gain deep knowledge of tiny particles like electrons, atoms, cells and complex human body and the physical phenomenon, the chemistry of everything. You are allowed to understand nature,

literature, philosophy etc. you are allowed to manage your time, labor hard. Prasadi trains you, educates you, and makes you punctual, teaches you to manage yourself and your time.

As you were enrolled in Prasadi, you become a Prasadian, now it's up to you, whether you want to be Prasadian or not. The Prasadian is optimistic, explorer and laborious. We stand after every failure and chase excellence.

## SWEET AND BITTER DAYS IN PRASADI

I still remember the first day when I joined Prasadi and now it has already been two years since I came here. The journey was really mesmerizing. The joyful moments with my friends and the prolific statements of the teachers will always be remembered. Completing the tons of homework and the practical assignments as the homework checking approaches and the laughters will be missed.

Some of the memorable dialogues of our teachers are:

SH Sir: Where is your hand boys?

RL Sir: Excellent...Fantastic.....Eh, How quickly you forget my nature!!

URT Sir : Bhatta, chatta sanga basa hai ta....

BPP Sir: Eh, 100% ni pheri....6 marks!!

RKS Sir: Eh this type talency is not required here!!

KBP Sir: Sabai xa?? Enjoy the question....

RT Sir and RKN Sir's motivational speech will be unforgettable. The group dance in picnic was memorable. Being awarded with the Student of the Month was great experience for me. The friends that I made here in Prasadi will always remain in my heart. Prasadi is the source of inspiration for all the freshmen as it teaches students the appropriate way of studying and maintaining good discipline. The slogan, "Where Care is Culture" is actually the suitable phrase which reflects Prasadi. My days in Prasadi were the most productive and fruitful days of my life.

## BEAUTIFUL MEMORIES

I am still confused whether my days in Prasadi were my beautiful memories or sweetest nightmares. But I'm sure those two years in Prasadi surely going to help me in future because of the lessons I've learnt in Prasadi. At the beginning, I used to find here quite boring and strict but as time passed I started being familiar with the environment, realized that all the rules and regulations were for the betterment of all students.

These made us well mannered and disciplined, made us punctual, made us able to face with our problems ourselves. The two minutes late made us realized that even one minute has 60 seconds.

The heavy load of books turned our shoulders stronger so that other responsibilities in future could be easily taken. In spite of strict rules there are great stories of fun and freedom. I felt myself lucky that I found many beautiful faces with who I shared my whole years in Prasadi. There was a nice discussion with nice people. I will be grateful

for the memories and the lesson I've learnt from Prasadi. And I'm proud how strong I've been in difficulties and how capable I am on making right decision choosing Prasadi. Prasadi taught me that discipline, punctuality, manner, problem facing capacity are also very important characters of a good student. So, along with quality education it developed those characters in me and filled me with new determination and motivated me to march forward in light.

My experiences are priceless treasures. I shall recall them and smile and cherish them even in my old days. And I would like to thank all my teachers, my friends who supported me and made me capable to fight future difficulties. And I find myself lucky because, I have something that is making good bye to Prasadi so hard.

**Sushil Subedi**  
**M11**

## J TO K AND K TO J

With lots of nervousness, excitements and hope for good future, I came from Janakpur to Kathmandu (J to K). Wandering here and there in the crowded city, I found Prasadi Academy: A house full of magnificence and tranquility. Perhaps, it's the only humble and unique house in the city, not very big but full of educational facilities.

The first day of school, I was very much excited to make new friends in H2 and at the same time, I was upset too because the teachers started the syllabus on the very first day without introducing themselves. From this, I learnt that you are not known by your name; you are known by your work. I learnt something new each and every day in this dream house. The smile of URT Sir taught me to remain calm and tension free. The lectures of KBP Sir, BBP Sir, and SND Sir were the most convincing lectures I have ever heard of. SH Sir was quite funny and loving. The teaching styles of GT Sir, BPS Sir, VG ma'am, SSA ma'am RL Sir and PHS Sir was much good and I can never forget them. RPY Sir's and Hamal Sir's dialogues are never to be erased from my memory. In fact, I waited for RPY Sir's classes. The inspirational quotes of BBT Sir and MKG Sir on the result days have given me the confidence to face any sorts of difficulties. I'll never forget the interesting

speech of MKG Sir. I failed but those well-trained teachers taught me to conquer.

In this short journey of two years, I enjoyed picnic the most: wild dance, fun, photographs and delicious food. Coming to classes on Saturdays, carrying heavy bags on homework checking days, shouting and cheering in picnic bus were the new experiences I gained. I can never forget my friends, bench partners and the friendly environment here. Unexpected bag checking, nail checking, hair checking and completing practical documents in classes are also unforgettable.

To be honest, this was the school where I felt as if it is my own house and I was going to school to meet my parents, brothers, sisters and friends. Prasadi taught me to be disciplined, punctual, polite, respect time and the importance of following your heart. Study became the part of fun here. This school became the source of inspiration to me and so, I call this institution, "My Dream House". I proudly say that I am a Prasadian. Days are not much far when I will have to make reverse journey i.e. from Kathmandu to Janakpur (K to J) with full of memories and love from Prasadi but I still have a wish. I wish the earth would reverse back. If only I could reverse my life back.

Thanks Prasadi for those two years and strong support and a lot of thanks to the teachers.

## CHEMISTRY IN PRASADI

After titration in Prasadi,  
 I found the end point with nice color of education.  
 After filtration in Prasadi,  
 I obtained a pure residue of knowledge.  
 After distillation in Prasadi,  
 I assimilated pure distillate of wisdom.  
 After precipitation in Prasadi,  
 I acquired good acquaintance in technology.  
 After evaporation in Prasadi,  
 I found a good flavor of scientific learning.  
 After condensation in Prasadi,  
 I initiated to accumulate intelligence in studying.  
 After quantitative analysis in Prasadi,  
 I got quality of education in science.  
 So, I love Prasadi and I am proud to be a Prasadian,  
 I will remember Prasadi Academy forever.....

**Adarsha Das Rajbhnadari**  
**B12**

## MY EXCELLENCE JOURNEY TO PRASADI

After completing SEE, I was confused on where should I enroll next. Fortunately, I got admitted to the one of the top high school, Prasadi Academy. At first, I was totally nervous as the environment, teacher, friends were completely new to me but as time passed I found them very friendly and co-operative. As time passed I found my class much more interesting and full of fun. All those sudden bag checking, homework checking and hair checking were unforgettable.

Some of the unforgettable dialogues of the teachers are as below:

**SKS Sir:** Keep Silent; don't talk when class is silent.

**SH Sir:** Why are you smiling nowadays??? Frequently...

**RPY Sir:** Observe it as well as absorb it. Network disturbed, connect here –boys and girls.

**SND Sir:** Malai manparne bidhyarthi ko chhaya herda ni chinxu!!

**RKS Sir:** This style ..No brains....

I am never going to hear all these dialogues here after. All these things were most memorable and how can I forget the fun we had in picnic....all those poses and dances were unforgettable. Being Prasadian, I feel so proud. I'm feeling sad today because from now and onwards I'll be ex-Prasadian.

Lastly it's time to say goodbye to Prasadi, I would like to thank Prasadi family from inner core of my heart.

I LOVE PRASADI.

PRASADI: "Power round and around that surrounds all with divine integrity"

PROUD TO BE PRASADIAN

**XII MGMT C7**

## **NOTHING LASTS FOREVER !!**

Do you remember how your school days were?  
 Days you spent is now just in your memory  
 You can recall it but can't regain it.  
 You miss your friends, your school,  
 Your memorable time with them.  
 You wanted them to be with you forever,  
 But school life ended. Now only memories are left with you.  
 You came to high school, again made new friends,  
 Met many people and some got attached to you.  
 But will that be with you?  
 No, endings are always to happen.  
 So, learn to live alone, dream high and  
 Bring your dream to reality.  
 Be strong enough to let go everything,  
 As nothing lasts forever.  
 But be brave enough to say and do  
 Whatever you want.  
 Don't hide your feelings, express them.  
 Let the one, who that meant to, know about it.  
 Though, nothing lasts forever,  
 But never live with regrets.  
 Face every situation as a legend and  
 Grab every opportunities that get into your way!!

**Asmita Pyakurel  
B6**

## EVALUATING MYSELF BEING PRASADIAN AND THANKING PRASADI

In the journey of my life, Prasadi has been marked as a beautiful travel in the pages of my life and has been locked in my heart as a memory forever. If fact, Prasadi became a platform for me to shape up myself. The strict nature of Prasadi has made me decent and discipline student. At the beginning days of my life as a Prasadian, I felt so very strange to adjust with other strange Prasadians as I had no friends in my section from my previous school.

At first it was tough but as I started to have company of friends, those special friends with beautiful souls, helpful, loving, caring and cheering up with me throughout these two years. I thank you all for making my days memorable and wish you guys a very good future ahead as we are departing soon. To the upcoming Prasadians I would like to say that everything you'll get to experience in Prasadi, accept it as a gift because all the things like bag checking days, changing seat plans, homework checking days, getting detention, monthly tests, exams, results and re-tests will later on surely result a great change in you and you'll know when you feel at the ending hours to be in Prasadi. My message for you is , ' My philosophy is that not only you are

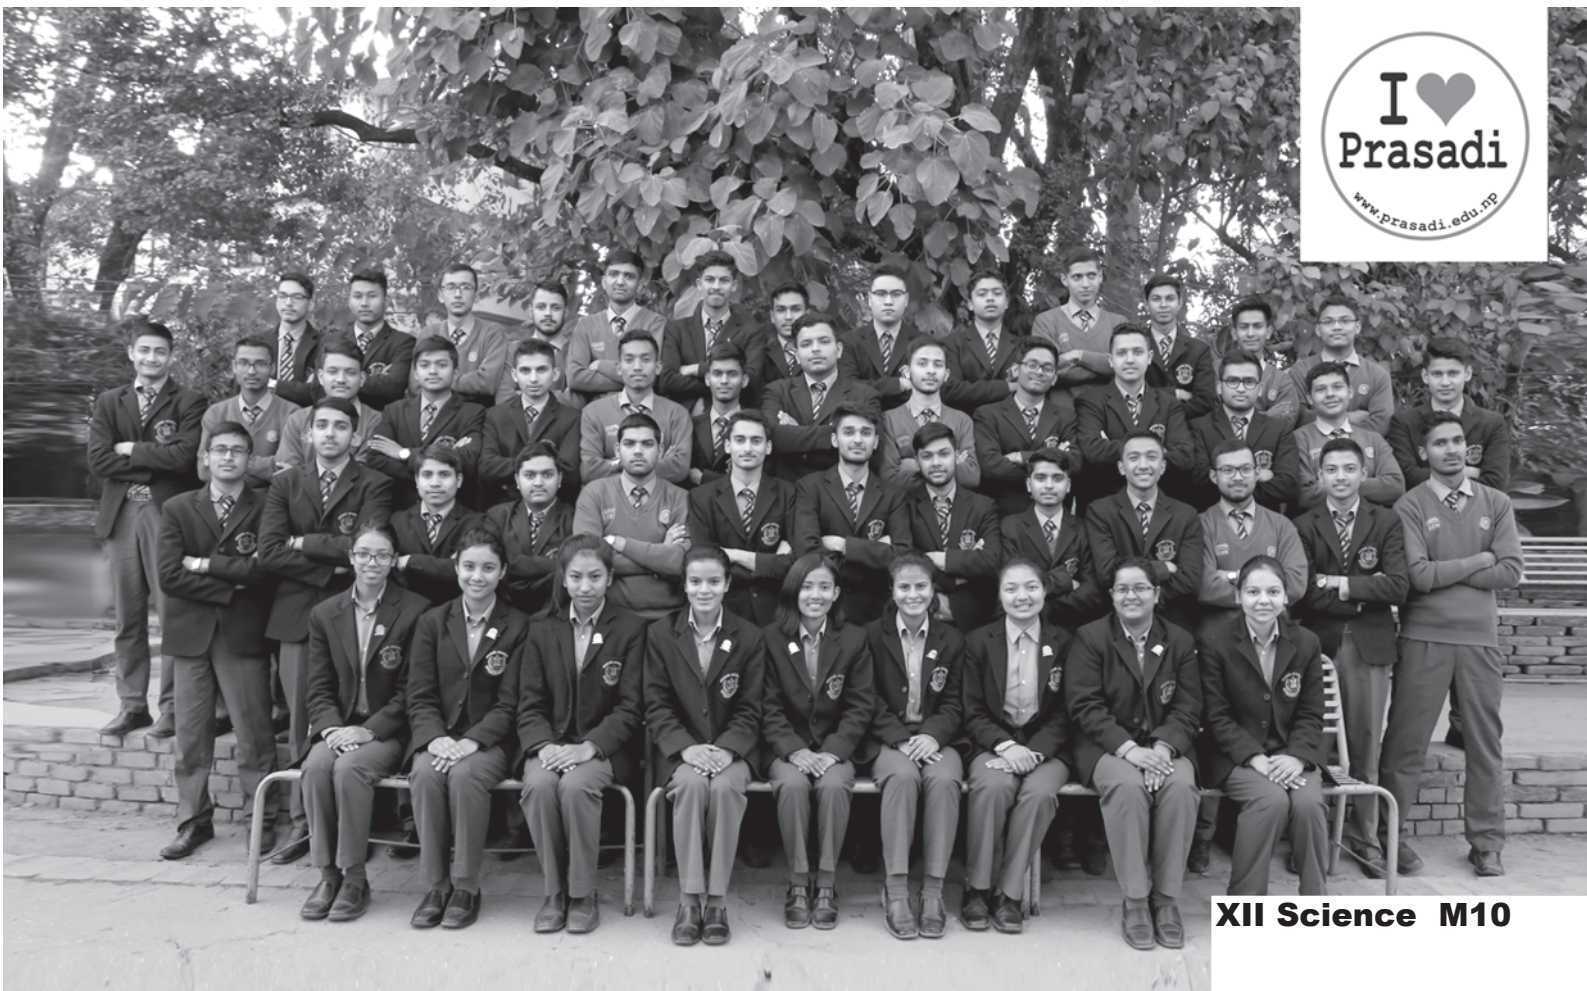

responsible for your life, but doing the best at this moment puts you in the best place or the next moment.' You'll evaluate yourself!

At last, Prasadi Academy, a respectful honor and salute for giving quality education, I thank you; respected teachers.

PROUD TO BE PRASADIAN!!

**XII MGMT C12**

## **FRIENDS TURN FAMILY**

When I ended up secondary school and joined my high school, I couldn't get out of the trauma of losing my old friends, meeting new people and adjusting in a new environment.

After studying here, Prasadi has become a part of my life. The teachers can never be forgotten. They are the ones who showed us the right path. Every moment in Prasadi is so memorable and precious. Picnic has been one of the inseparable memories from everyone's heart. Not only these, there are a lot of memories to share but all my memories are not possible to express in words and no matter how much I write.

The unconditional love, care and inseparable memories from my fellow friends will always remain in my heart. Those people with whom I didn't even imagine to speak now have become so dearest to me. Today, I realize that all my teachers and friends have become part of me. In short, we have turned to be a family, "Prasadi Batch 2073/75 Family"

All my respected teachers and friends will remain in my heart forever.

**Soniya Maharjan  
C13**

## PRASADI- A NEW BEGINNING

I remember the first day when I entered Prasadi. I was quite nervous and excited as well. With all new faces and new surrounding it was obvious to get nervous but later I realized that all the teachers and members of Prasadi were so friendly that they made me feel like home. I would like to suggest the entire fresher that even if you're counting down the days for the rite of passage, you'll need time to adjust. If you find yourself struggling with the change, keep in mind that it's not the sign of weakness or failure. In fact, struggling often sets the stage for a phase of development and strength. During your time in Prasadi, it is important for you to realize that Prasadi is the first step of the ladder which leads you towards success. You shouldn't be afraid of the changes that may occur in your life during the Prasadi time because it is sure that you'll gain something better here. I, myself have found Prasadi as one of the best source of education and discipline. In the end all the love and care I got in Prasadi is kind of blessing for me and today I am glad that without any hesitation I can say

PROUD TO BE PRASADIAN!

**Shishir Gautam**

### ABOUT PRASADI.....

Each and every days spent in Prasadi are memorable. If we are to collect all those moments one by one, we need to publish a book on 'Prasadi Memories'. Life is full of sad and happy chapters. Studying in Prasadi was the happiest chapter in my life.

In life chapter finishes but memories goes on till the end of life. Prasadi: "Where Care is culture" is not only a slogan. Once you enter Prasadi, you will be cared more than a family. Love and inspirations of teachers were similar to that of our mom and dad. The motivating speech of our Chief Sir would encourage any student to labor hard. In the journey of two years, Prasadi will make you so responsible that you will be able to select the best option in your life ahead. Here, you'll know the importance of time and all others.

Many things inside Prasadi were unforgettable like:

- Surprise and unexpected bag checking
- Keeping tidy hairs and short nails
- Unlimited fun in picnic
- Monthly tests
- Motivating speech of Chief Sir
- Caring nature of SSA Ma'am
- Not a day with leisure period
- Calling parents on your absent days
- BPP sir calling "Yesterday Absentees"

In this way, Prasadi is the best place for high school education.

The two years of journey had been splendid. The memories I had made will be cherished forever in my life. I will be missing Prasadi Academy, my friends and my teachers a lot.

Proud to say, "I love Prasadi".

**Shiv Narayan  
B13**

## THE UNIQUE YOU

“Every youth wants to be unique but the world around you is trying its best day and night to make you just everybody else. So, you have to fight the hardest battle which any human being can ever imagine to fight. That is the unique you.” says APJ Abdul Kalam. Being always motivated by this quote, when I first entered the gate of Prasadi, the smell felt was all new. It was as though my “unique me” was in danger. But no, love, care and motivation from teachers and friends helped in pave my way to “Unique me”!

When you have a good heart and a great mind with a heightening dream, every obstacle you face in your life becomes a beautiful circumstance to sharpen yourself. The vast ocean of homework made me an able person to swim every river of life hurdles with an ease in heart. Every monthly test and terminal examinations made me focused on my goal. “One minute remaining” calls from teachers made me gaze at every seconds as a meaning and wonderful time to go through in my life with full dedication. The strict rules and regulation and still enjoyment with friends taught me that the amalgam of working with the limited boundary of discipline and refreshes with likeminded ones can be a wonderful achievement you can have in your life. The absence of ringing bells taught me that if you

have dedication to walk with time, time also alerts you time to time to be attached on your destiny and the presence of inspirational classes from teachers helped me to stay high and alert in every aspect of my life.

And having been through these and all (which can't be described in this paper), you emerge out strong, burning with a full dedication and of all, a faith on yourself with a sense of satisfaction with who you are and so did I. this is what I call “Unique me”.

Prasadi has set a twinkle of fire on my work of ability to lighten up this beautiful world. That's why, I want to express my dear and humble thank to Prasadi to bring the best in me and for making me realize the meaning of “Unique You”.

## **HUMEROUS 'H2' TO MIND BLOWING 'M9'**

Two years of journey  
 Interesting and funny  
 Sometimes we fear  
 Not only for the caught  
 But also for the mistake we haven't done.  
 The most enjoying times were classes  
 Which was easy sometimes careless.  
 Though the teachers were the best  
 But the students were the naughtiest

We tend to fail in every step  
 But the support of teachers never fails.  
 The moment of picnic was awesome  
 And the dance and enjoyment was full on.  
 Photo session was a memorable moment  
 But writing memory should never be forgotten  
 Prasadi taught, making mistake is our right  
 But not trying is our crime  
 Two years of beautiful journey ends  
 But it's not the actual end  
 Yes, I study in Prasadi and proud to be a Prasadian

**Kamal Kumar Chaurasiya**  
**M9**

## LIFE CHANGING EXPERIENCE

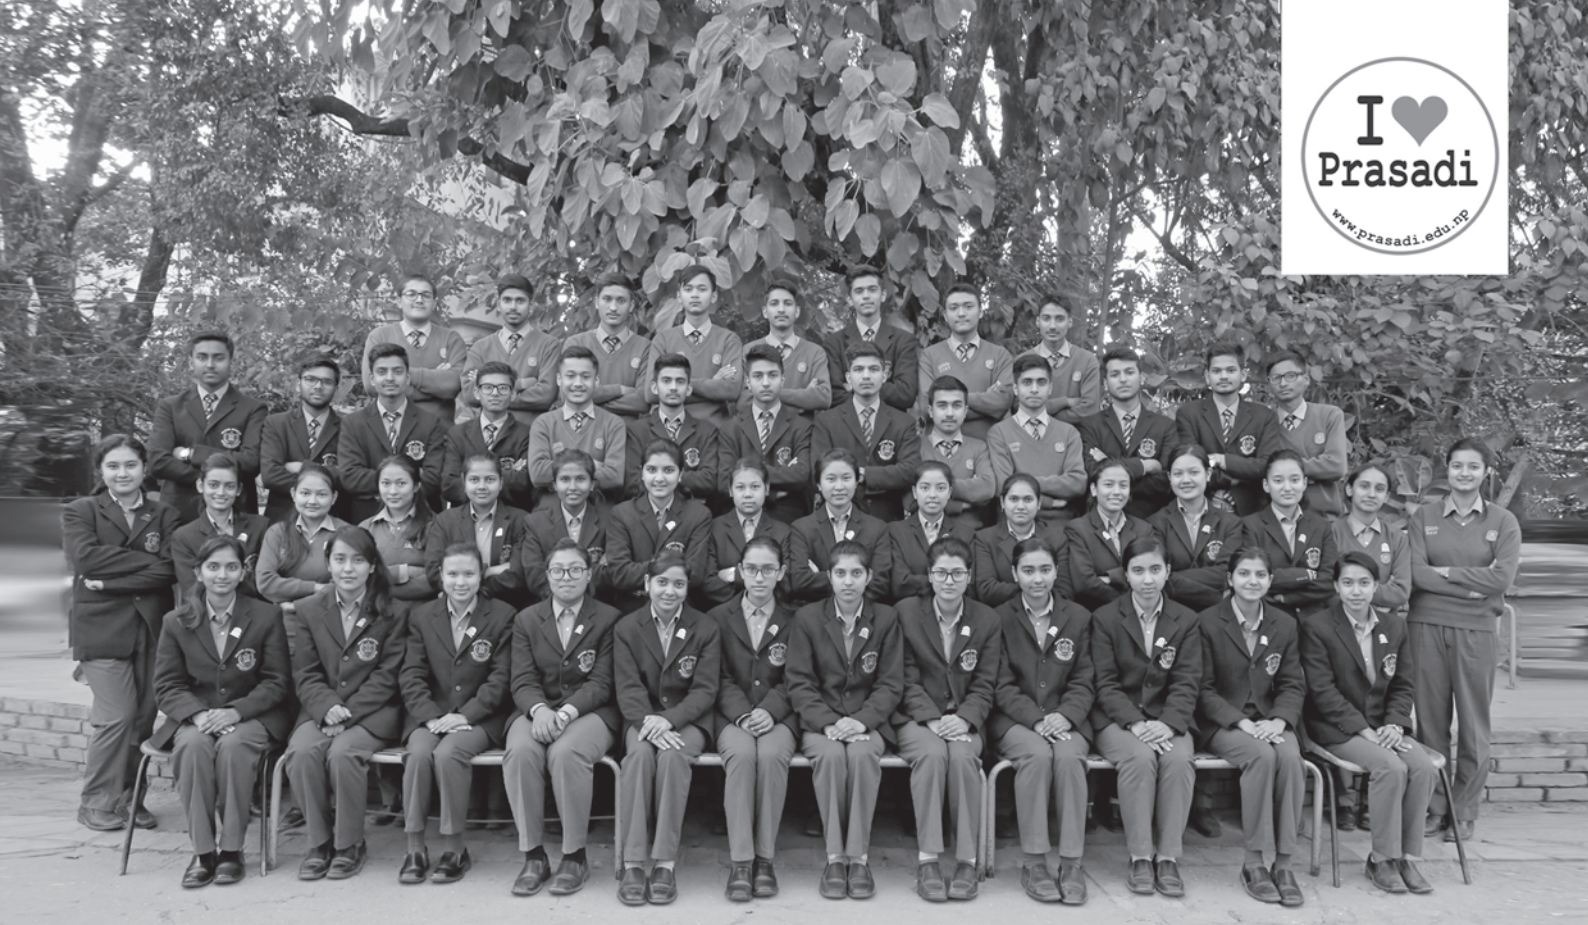

After I enrolled to Prasadi academy, the journey from H2 to M9 was awesome. I will never forget the lesson of discipline, honesty, hard work and the value of time that I learned in Prasadi. It provides the bundle of sticks, full of strengths and knowledge with the help of which I moved slowly towards my destination. Prasadi taught us to walk in rules and regulations, to utilize every single second of life and to know the value of time. Being a Prasadian, I feel so proud because the academy taught to be punctual. I found all the teachers most inspiring and so motivational.

A friend, if you fail its ok, if you give up it's not ok. Work hard and never give up. Never blame anyone in your life. Good people will give you beautiful memories and bad people will give you experience and teach you a lesson. I am proud to be a Prasadian.

**Bikash Jha**

## XII Science B6

### GREAT PRASADI: SIMPLE AND DIFFERENT

The first day when I entered into the gate of Prasadi, I felt different as if a new world which is the beginning of happiness and joy. Checking at the gate by our respected teachers was different. The motivational speech of teacher was great difference from others. Being Prasadian in itself is a great difference in itself from others.

These dialogues of some teachers make Prasadi heaven simple and different from others.

SH Sir: I'll check your copy.....,"Why are you laughing?" ...."Nowadays" ....frequently...

RL Sir: Filmy jokes.....,"Fantastic" ... "Wonderful"

BBP Sir: Stupid....Octopus....

KBP Sir: A Boy, interesting student, "Enjoying here"...

BPS Sir: "OKKK, .....eye contact is essential"

RPY Sir: Connected. TB (Totally Busy)...observe it as well as absorb it.

**Himal Kumar Yadav  
B6**

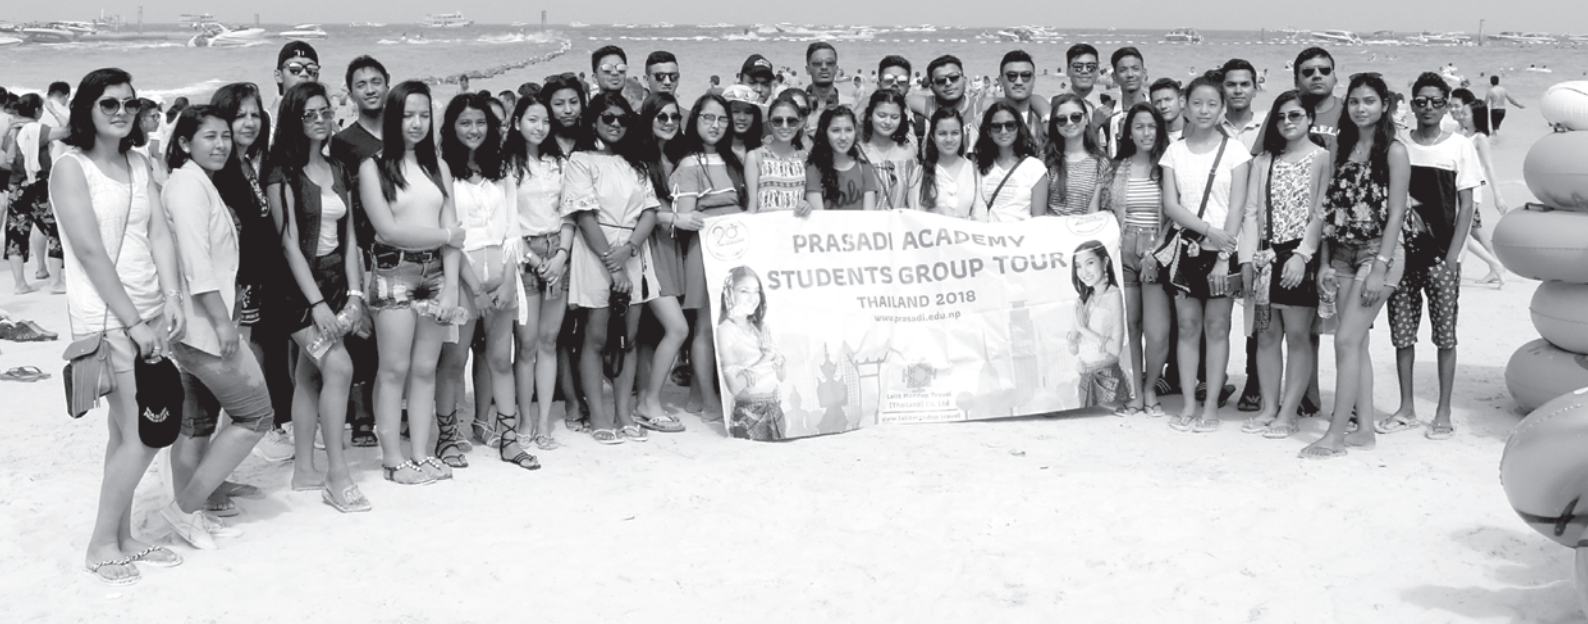

## A JOURNEY OF TWO YEARS

A journey started nearly two years ago  
 With those unknown faces from around country  
 Some serious, some humorous, some silent and some hyper  
 But all trying to cope up with the situation  
 Days passed by  
 From silent they became hyper  
 From serious they became humorous  
 From friends they became family  
 Memories went on being made  
 Days went on being dazzling  
 Classes went on being entertained  
 Holidays went on being worthy  
 Awkwardness transformed into openness  
 Boredom transformed into excitement  
 Activities transformed into reminiscence  
 Finally Prasadians transformed into Ex- Prasadians

**Sumiran Pokharel**  
**M9**

## REPORT ON MEMORIES IN THAILAND

### Introduction

Travel is the only thing you buy that makes you richer. To make us rich in experience and explore more, Prasadi organized an awesome trip from Jan 15th to Jan 19th with most enthusiastic friends and most responsible and cheerful teachers. The tour was organized for 5 days 4 nights with the motive of exploring the marvelous place of the world. The tour's destination was Bangkok and Pattaya, the two hypotonic place of Thailand. 35 enthusiastic students and teachers headed for the tour to Thailand. The parents let their diamonds visit Thailand believing the management team directed by Chief Bikram Rai with Mr. Uddhab Raj Tripathee and Mr. Rajendra Limbu and other beloved teachers.

### Short look at Thailand

Thailand, officially the kingdom of Thailand and formally known as Siam, is a country at the centre of Indo Chinese peninsula in south East Asia. It is a wondrous kingdom featuring exotic Buddhist Temple, breath taking scenario, spectacular island and unique culture, Thailand is also known as "Land of the Free". It is the only country that has never been colonized in south East Asia. The capital and largest city is Bangkok.

### Methodology

To prepare this report I have used all sort of resources like internet, magazines, books and most of all self observation and interaction with our own most cheerful and jolly guide Kuning.

### Observation

The tour to amazing Thailand was truly one of the unforgettable moment of my life. It has become such memorable because of the punctual and remarkable management. Every second was perfectly used up in exploring and experiencing the exotic beauty and life style of Thailand.

When we landed on Suvarnabhumi Airport, we were astonished with its vicinity, so clean and peace. As we go by the road our eyes will strike one huge artistic formed picture of king with every considerable distance we could see the picture of the king. King is highly respected by all the people. He is taken as the father of Thai people.

Because of the good coordination with our guide, we got chance to learn some Thai language like nam;water, hellnam; thirsty, sawasdu ka; Hello...and some other difficult long words. During our conversation, she said a very long Thai word and said that was the actual name of Bangkok, the capital of Thailand. It's called "Krung Thep" (The city of Angels) the ceremonial name is even longer (the longest in the world). Here it goes:

“Krung Thep Maha Nakhon Amon Rattanakosin Mahinthara Ayuttaya Mahadilok Phop Noppharat Ratchathani Burirom Udom Ratchaniwet Mahasathan Amon Phiman Awatan Sathit Sakkathattiya Wit sanukam Prasit”

The name means :“The city of angels, the great city, the eternal jewel city, the impregnable city of god Indra, the grand capital of the world endowed with nine precious gems, the happy city, abounding in an enormous Royal Palace that resembles the heavenly abode where reigns the reincarnated god, a city given by Indra and built by Vishnukam.” It must be very difficult to remember this for even Thai people. That’s why a musician made a melody for this long name to sing just to remember. Even Thai people use that short name only.

Then the formal visit was started with the private ferry to coral island where we enjoyed a lot and captured the fabulous scenario with our happiest faces. All students were trying to stay there more but due to the bound of time we returned and again headed towards Art In Paradise Pattaya. The ultimate 3D museum in Pattaya was unbelievable. The entire pictures were very realistic. Then we transfer from Pattaya to Bangkok.

Second day, was our destination of safari world and Marine Park. It was really amazing. Those stunts of dolphins were unimaginable and breath taking. We all students were too happy to hear Nepali song in the safari world. After that our dinner was with chophraya Princess Cruise. It was very amazing. Having dinner with the beautiful night view of Bangkok and singing and dancing in the cruise was the best.

Third day, we visited the Grand Palace, where we realized how much they respect their King. We were not allowed to wear shorts and sleeveless shirts which were remarkable. Same day we headed for Madame Tussad wax museum where the models

of famous persons were made which was very realistic. Clicking photos with those models were awesome. Our dinner was in the Biyoke Sky Hotel (tallest building in Thailand) which was really interesting.

### Conclusion

I was not the same, having seen the moon shine on the other side of the earth. It was a great experience. Adding some knowledge and creating memories was incredible. This tour was perfect but it would have been better if we were also taken to Phuket, one of the places in Thailand. No doubt, experience is big thing which were filling our memories diary. Lastly, I would like to thank all my friends and management team for making the tour a huge success.

“Like all great travelers, I have seen more than I remember and remember more than I have seen”

**Jyoti Rai**  
**B13**

## HOW TO BID GOODBYE

Prasadi! Prasadi! Prasadi!  
 How can I bid you goodbye?  
 My two years of journey,  
 Seems to have finished only in two days  
 Inspiration of teachers,  
 Motivating speech of Chief Sir  
 Love of friends  
 All were the precious things  
 Which I could never pay for  
 If someone would ask me  
 To make a wish  
 I would like to spend my life  
 As Prasadian once again  
 But I know it is impossible  
 School life to high school life  
 High school life to university life  
 Are the stages of life  
 That everyone must understand  
 And must pass through  
 But my life as a Prasadian  
 Will be memorable and cherished forever  
 And I will always feel proud to say "I love Prasadi"  
 Prasadi! Prasadi! Prasadi!!!  
 How can I bid you goodbye?

**Shiv Narayan  
 B13**

## TWO YEARS OF OUR LIFE... ..

A part of our journey has come to an end  
 Something started and will finish as the trend.  
 Seems like it's only yesterday that we started  
 But today, we are here to be departed.

We still have a long way to go  
 We have our journey to complete  
 Yet, these two years will be treasured the most,  
 Though there are things we gained and we lost!  
 These years of our life are the most cherishing  
 As it's full of memories, learning and bonding

In this short time,  
 The teachers taught us to learn better  
 And the students taught us to be better.  
 So even though this phase has come to an end  
 You will all be remembered in every step and every bend!

**Laja Shakya  
 C6**

## PRASADI: THE TEMPLE OF LEARNING

Perhaps what I should consider is the value of place on education with schools and college, I found Prasadi as temple of learning which gave me a best learning environment. I really found all motivational, inspiring, encouraging and energetic teachers. I can't imagine about the support, care and love shown by Prasadian teachers and students.

Learning can come from religious affiliations, personal study, experiences but joining to Prasadi Academy inspired, motivated and encouraged me to make my learning abilities hundred percent perfect. So, we can conclude that Prasadi is one of the best schools where we can improve and find a place like temple of learning.

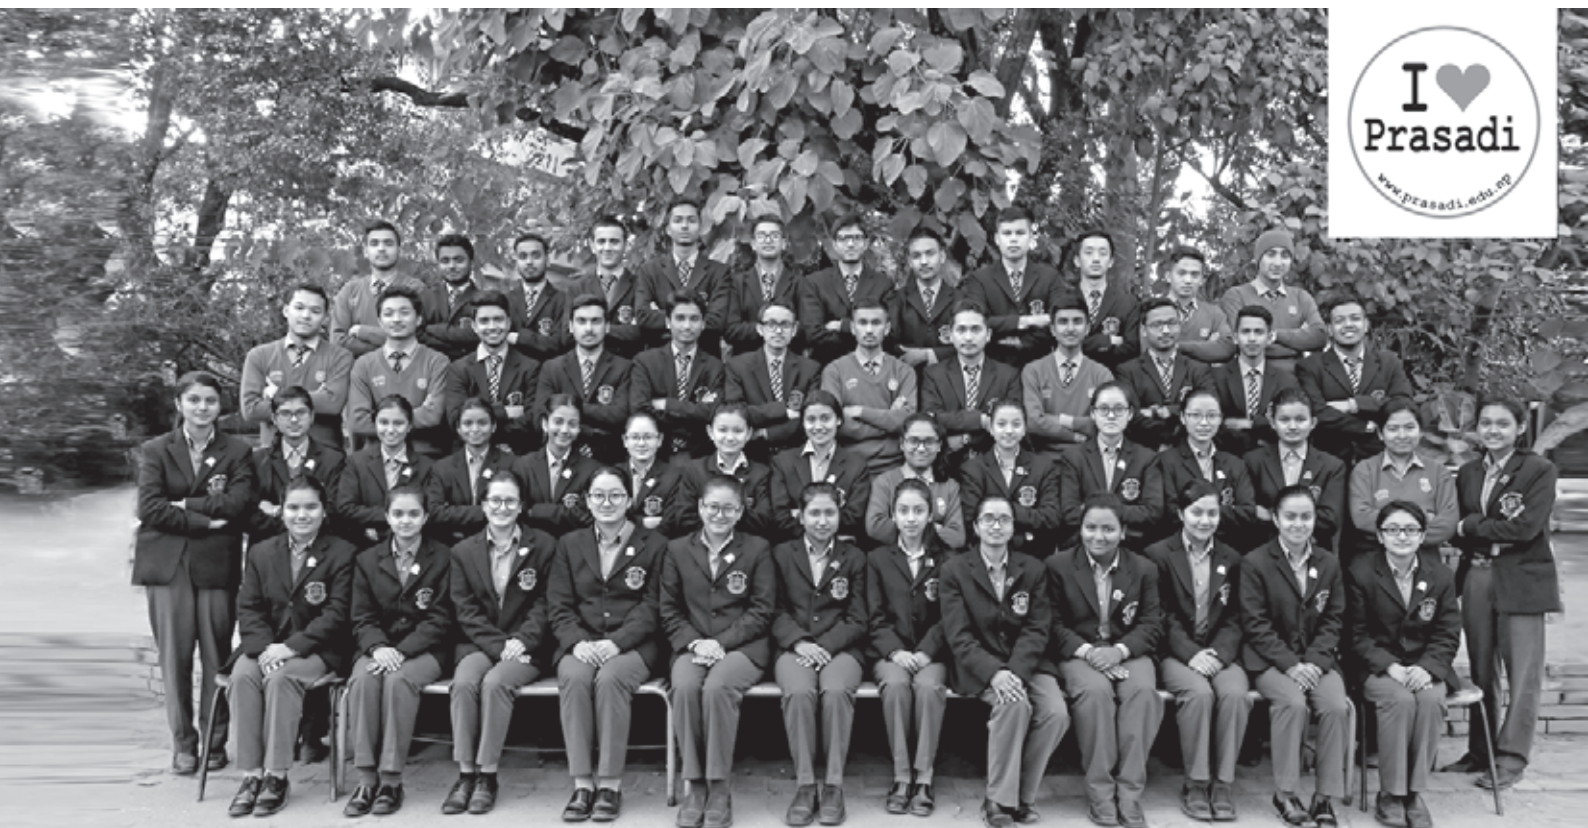

**Samarjeet Shah**  
**B13**

## MEMORIES

Good or bad  
Happy or sad  
Normal or mad  
I always had  
Memories  
They made me sad  
Showed me as mad  
Reflected my inside bad  
Memories  
Some of them are good  
Lightens up my mood  
Deliciousness of food  
Memories  
Are crazy  
We laugh at them  
Even if we're busy

**Smarika K.C.**  
**C7**

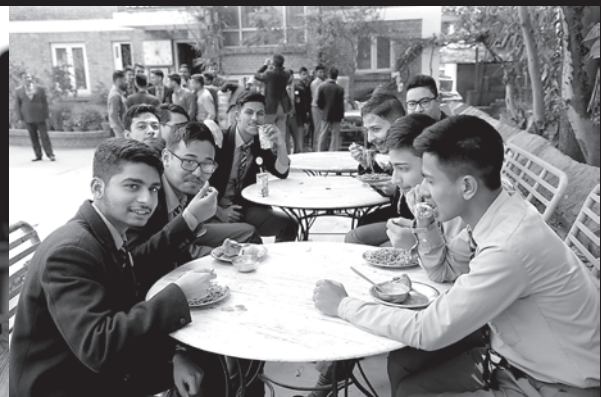

## WAVING GOOD-BYE

It's time for us to leave,  
 After the end of two years trip,  
 Suddenly it is the end I say,  
 No more hard work night and day.  
 We have laughed together,  
 We have studied hard together,  
 We have been in the same compartment,  
 Even we smiled in the same quartet.  
 Picnic was fun, with love of tons,  
 Mimicry of teachers where strictness was hidden,  
 Homework and bag checking was all of a sudden,  
 Short hair and Saturday classes were a trend.  
 Teachers' lectures and dialogues were fun to make,  
 Late in the class was place to the gate,

How could we forget the memories together?  
 We have made.  
 The intensity of the past two years,  
 Despite of work, stress and few fears,  
 Has been matched by our fun and friends  
 But we have still stayed loyal to the end.  
 We will remember all these memories,  
 That will be written in our heart and diaries,  
 Whatever the path of life we might take over,  
 We will be proud to say that we were Prasadians.  
 We are Prasadians and we'll be Prasadians forever.  
 Thank you PRASADI for all these memories like  
 sky and the journey that ended up with the waves  
 of good bye

**Nabin Shrestha**  
**B5**

## JUST FOR A MOMENT

How long does your happiness last?  
 Just for a moment  
 It goes with a blink of eye  
 How long does your sadness last?  
 Just for a moment  
 It goes with flood of tears  
 How long does your tear last?  
 Just for a moment

It goes with a negative thought  
 Feelings, smile, anger,  
 Shyness, boldness, excitement,  
 Nervousness, acceptance, rejection  
 These all are just for moment  
 So live every moment whole heartedly  
 And if you're doing so  
 You're alive in true sense

**Sujeena Karmacharya**  
**C7**

## OH MY DEAR PRASADI!!!

It's the time to being apart from you  
 It's the time to say goodbye to you  
 But the moments spent with you will be alive forever in my soul  
 Time has passed too fast like swift blow of air  
 But gained indelible memory from you which will remain life long  
 Oh my dear Prasadi!!!

I learned to be punctual because of you  
 I got all loving and caring teachers because of you  
 I got lifelong friends because of you  
 I got love, support and care as a Prasadian because of you  
 Your effort to delight my future had really changed my life  
 Oh my dear Prasadi!!!

Departing from you is my great fear  
 Lastly when the time came to apart from you  
 Tears roll down from my eyes

The bonding that created with you will always be immortal  
 Heartily thanks for your warm love and care  
 PROUD TO BE PRASADIAN.....

**Dhanjay Shah**  
**B13**

## TWO BRIGHT YEARS

Can you explain two years of time is short or long? If you ask me I can neither say its long nor I can say it as short. When you ask a lady sitting at the dark corner in cow shed she would explain how long these two years are? If you ask someone sitting in the brightness he would explain how short these two years are? In fact two years are neither long for someone and nor short for the other. It is exactly same period

but the situation makes you feel so, longer or shorter. When people spend time with happiness and satisfaction then they feel time tenure to be short and when they have to spend in difficulties, the same time period becomes longer.

I still remember the environment of the very first day when I admitted to Prasadi, a long queue inside premises, many people outside of gate, admission closed at 2 pm. The scenario of first day is still fresh in my mind. I felt it was last day but actually it was last year. These two years, I spent under the brightness so my heart never thought it was last year. My two years in Prasadi are golden years of my life, two bright years of long journey and most importantly two most worth tenure of my goal. The worth of my teachers is really unexplainable within these words. These energetic faces filled with knowledge are really valuable characters of my life. These tireless

hardworking teachers are my inspiration, source of motivation and my path makers. Their every word will remain the most valuable till my last breath and will be my way to destination. The toil of teachers to build better future of many innocent and immature faces cannot be paid with any amount of money. I feel myself blessed to be enlightened with the spark of education under their shadow. I cannot imagine the environment to be favorable without the better management skills. The first and the foremost need to learn new things and fill the vacant mind with knowledge is management. I feel myself proud and lucky to get admitted in this well managed institution. And my words are less to pay my gratitude to these hardworking people who always aim to provide the best environment for learning. Adolescent is the part of life in which people turned to be wild, undisciplined and get into number of difficulties and problematic situations. I am really thankful for every striving individual to carry their efforts to maintain discipline and to teach the real core of culture and guide us in the right path for our bright days ahead. The discipline and culture that I have learned in Prasadi is really the

important lesson that drove me right way. My words cannot express how thankful I am. These unknown faces full of curiosities to learn many new things turned to be known and my part of life. These friends who made my every moment more precious are unforgettable. Their help, support and funny moments are my best memories. The environment they created made me easier and comfortable to carry my learning processes. Every joke we cracked between us, every journey we walked, every songs we sang, every dances we danced and many moments of togetherness are my precious moments. This will remain forever in my mind. My words are not enough to pay for these beautiful memories that you created with me. My words are not capable enough to express my love, respect and gratitude to you, my teachers, my friends, school management and each and every hardworking staffs of this institution. Your efforts and energetic characters are the causes that made my two years, the brightest. I want to salute every people for your warm and well characters with me. And most importantly you will remain in my brain and heart forever and won't be forgotten during my life time. These are my words for you from the inner core of heart for providing me these two years, bright.

## ZERO REGRETS

I still remember the first day in Prasadi Academy. I was heading towards the entrance gate being totally uncomfortable with the uniform. Even though I was quite excited about joining here from the school days, I was however excited and nervous at the same time. I was stepping into the new world leaving my school life behind. I still remember how my heart skipped a beat when my class teacher called out my name on the very first day for attendance. My experience throughout grade XI was amazing. New friends and new teachers became familiar with time. But, our friendship took a great turn when the

inspiring and motivational. We know, everything cannot be expressed in words and sentences. The time I spent here, the memories I made here, the people I met here are all so precious. Now, coming towards the end of the two years journey in Prasadi, I still can't believe I'm passing out from this school. It was my great desire to study here. From the ups and downs to the friendships, I've collected really amazing memories from Prasadi. I'll forever be grateful toward this academy for treating us so well, for teaching us various aspects of life and many more.

- Thank you Prasadi for enhancing our abilities
- Thank you for providing us such inspiring teachers.
- Thank you for teaching us proper time management.
- Thank you for not being ordinary.
- Thank you for everything!!!

class sections were changed and they gave me some of the really precious friends. I've collected some great memories regarding the Prasadi picnic to Tribhuwan Park. We danced there the entire day. We had so much fun and piled up so many memories to cherish throughout our life.

But, after spending entire two years in Prasadi, I've got so connected and comfortable with everything it does. I used to introvert in my school days but after joining Prasadi, I've developed into exactly opposite of who I was. I've learnt to be confident, to speak up in the mass and place my opinions freely over these past two years. The inspiring teachers, their words, their way of teaching; everything is so

Actually, it feels really sad to accept the truth that I'm leaving Prasadi behind and moving on for further studies. But, in these two years, the lesson I learnt is to expect less and do more. Expectations are always going to hurt us. Life is really short to hold on grudges and feel sad for simple stuffs. I have no regrets and no disappointments for choosing this academy for my studies.

Prasadi Academy actually appeared to be a blessing in my life. I'll feel forever blessed to be the part of this wonderful place. It's the best place for proper execution of the plans for studies.

One will never lament on choosing Prasadi. It is something to be proud of.

## YOU THE ONE

Just look at yourself!!! Who are you? What is your aim? Do you know your own treasures? Have you tried to find them? If not, let's find it now, it is within us. Just understand the real aim of our life. If you can find it in time, you will never fail and make your life meaningful.

Have been successful to achieve laughter? It's a deep laughter, from your very roots which will give you freshness, a new vitality, a new energy to move to the mountain of success. So try to achieve that laughter. It's your freedom to be miserable or to be blissful, to remain in darkness or to live a life of light you have to take the whole responsibility for your life. Don't blame others; others can't object the track of your life, you, and yourself are the one to block the way to the success point. Actually, complaints provide an opportunity to get improved. It should be taken as the source of inspiration. If you can improve yourself, you can enjoy the real happiness of your brightest life. There is a saying that, "One who doesn't take risk in their life will be risky".

Make yourself able and energetic, and challenge the obstacles that come in your way. In this way you can become more independent and confident. You are the one who can do it.

Miss you Prasadi Academy

## MY FIRST AND BEST DECISION OF LIFE PRASADI

I can't forget the day when I was in dilemma to select best school for my further study after SEE. I still remember the moment when I decided to join 'Prasadi Academy'. It was midnight, few moments after I got admitted in best school I chose which made me what I'm today. The decision of studying in Prasadi whose motto "Where care is Culture" impresses me to join and my decision was fully supported and praised by my parents and seniors. The first day I was so nervous, but I felt calm seeing the smiling faces of teachers. After spending few weeks, I found it as best friendly and caring

environment with best teachers and management team, I have ever heard about. The memories I created during this two years of my school life would remain as best memory of my life. The journey from H3 to B12 was quite memorable and interesting. I can't forget the dances of picnic running at early morning to reach school on time and also my best friends.

Now, all these are going to be a memory for the rest of life. The journey as Prasadian was full of fun and busy completing homework. These all experiences proved my decision to join Prasadi as best decision. I would be missing all those moments as Prasadian.

Thanks to all for making me what I'm today.

Proud to be Prasadian

Miss you Prasadi!

**Sashi Bhusan Kumar Yadav**

**B12**

## DELIGHTFUL REMINISCENCE FROM PRASADIAN TO EX PRASADIAN

It feels like just yesterday when I stepped into the premises of Prasadi Academy, but it has already been two years! Really, time flows very fast like a flowing river. On first day, I was full of excitement and little bit scared. When I entered Prasadi, I found the environment so much peace and amazing. I searched my section in Notice Board and I found that the section was P9. My journey in Prasad was from P9 to C13. These two years have been my unforgettable moments.

I can't forget the surprise bag checking, nail checking, monthly test exam and the heavy bag during homework copy checking day. Though they were burden for the time being, now they are the part of one's memory, every Prasadians' remembers.

The second phase journey began in C13 where memories of Prasad were multiplied by the teachers whose teaching method were interesting. I can't forget the friends of Grade XII. They are the best and wonderful friends forever.

I'll never forget the funny dialogues of teachers. Some of them are:

**SKK Sir:** students don't talk.  
NO....NO....NO....NOOOOO....

**RKS Sir's Lecture:** YES...today we are going to read the communication. YES... ABA

communication is the two way process vanxa...

**MKG Sir's anger:** YOU...nonsense what I say do that...

**RL Sir:** SOOOO SAD....hahahaha

**BBT Sir's anger:** Ko ho tyo bahira nikalxu maile identify gare vane.

**BP Sir :** THAT IS WHAT ...this theory was propounded by Marshall... THAT IS WHAT...

**DKP Sir's Lecture:** According to market equilibrium condition market demand is equal to the market supply. RIGHT!!!

I want to say that Prasad Academy is not only the institution, it's a place of motivation where we can learn about discipline, manner culture etc. I judge this place as source of inspiration. This institution has provided me the lake of knowledge and wisdom which make me rich in myself. I respect everyone who had contributed for the establishment of this institution. Prasad left me indebted forever which I will never be able to pay back.

I'm blessed and honored to be a part of Prasad.  
PROUD TO BE PRASADIAN

**C13**

## PRASADIAN TO ALUMNI

Two years back, my heart was full of fear seeing the new environment of Prasadi. Neither it's a long journey nor its short journey. Two years has passed and I didn't even realize that time was speeding. I didn't only enjoy the memorable moment but also some of the bitter moments experienced here, are part of my journey. Memories can't be written in couple of paragraphs. I can write a book about my memories here. My bond with Prasadi is very strong. Prasadi is my second home and there would surely be place for Prasadi in some corner of my heart till my last breath.

For the first few days I couldn't adjust the environment. But slowly facing lots of things and gaining lots of knowledge, Prasadi made me strong. Sorrows didn't hurt me but made me even stronger. It gives such a great pleasure remembering those moments. The surprise bag checking, pressure during homework checking, monthly tests, picnic and AD madam's classes are what I will miss the

most. I can never forget my friends who were always beside me when I lost courage or in the face of any problems. My friends became a part of my life. The bond I've shared with you people means so much to me .I feel blessed to have them as a part of my life. Prasadi has taught me the value of friendship and timing. It has taught me that everyone is perfect in their own way. I have learnt how to stay calm and confident from the outside, even if I'm dying from inside. It has taught me that even pains can be beautiful. Looking back, I realize that everything was beautiful. Every single thing here was perfect.

It's truly said, nothing is ever lasting. Those times once spent, those promises once made, those prayer once asked sooner or later fade away. We walk out of that gate but hopes still linger around it. Those endured emotions heavy on heart flow out with tears when memories really touch us and pinch us. Sad face and tears shows how much we tried to be far from it. I know some people and things come for short period of time but leave the inerasable memories and foot prints in our heart.

PROUDLY A PRASADIAN

# MY VIEWS ON PRASADI ACADEMY

It is common nature of all human beings to select the best. After passing SEE, it was quite difficult task for me and my parents to choose a high school for further studies. After all, it determines what we will become tomorrow. Finally I found Prasadi Academy to be the best one as it has the real spirit of education.

The three major things to select any school are: Our mentality, choice and our capability; history and achievement of school and quality of teachers i.e. how they would simplify the difficulties in the concept. I found Prasadi Academy as the best high school to frame our educational career as Prasadi is economically affordable, socially adjusted and spiritually balanced.

Here, the teaching faculties are very dedicated. After I joined Prasadi Academy, I got the high school of my dream. It bears good teaching methodology, personal counseling, and career guidance as well as equipped labs. Here, the teachers teach us professionally and emotionally. It has good result in all faculties due to the presence of manageable team of different personalities having long experience. It has outstanding academic performance with excellent board results. It keeps regular report on students' progress, planned program of teaching and assessment on ongoing commitment to provide quality education. It

also ensures the best adjustable surrounding for the newly admitted students for upgrading their subjects of matter.

Finally, my final words to Prasadi is that it will always remain in my heart with all the memories and thanks for giving me every sparkles of happiness and knowledge in order to tackle every obstacles and challenges of my life. I feel proud to be a Prasadian. It's not the end dear Prasadi. You have made me stronger than the strongest. You've created me; you've nourished me so well that none of the unhealthy thoughts could be the barrier for me to achieve success. I assure you to make you feel proud in the coming days.

Miss you Prasadi and all teachers.  
Lots of love and respect.

**Prakash Bhandari**  
**M11**

## HETEROGENOUS MIXTURE OF MEMORIES AND LESSONS

Hello everyone! To help you watch out a short glimpse of Prasadi Acaademy, I would like to share my experience with you.

Last night, I began to write, with all my might  
 Something that's grammatically right  
 I thought of many poems and passage  
 But none could spread my message  
 I was confused and perplexed, this was making me vexed

I was surrounded by old magazines and books  
 So I decided to give them a look...  
 But as I was thought to be original  
 I came to drop this to you all...

It is always nostalgic to think of the past life especially our high school days. It is one of the memorable phases of my life. When I look back at those days, smile automatically sticks on my lips. I don't know whether that smile is the expression of good experience or bad experience. But I can certainly tell you whatever it is, I like the way I see myself. Everything had its own importance in these two years of journey. teachers, friends, lectures, doing homework, everything. The inspirational message of Chief Sir, hard work of teachers is still driving force in me. They gave the strength to tackle every situation. I would like to make you walk through some of the moments which almost came in everyone's life so that you don't feel like:

'Why me?? Only? All the time.

- For morning students, the most irritating moment is the morning alarm. Splashing water on your face and getting freshen up is really tough.
- There must have been one day in every student's life when your friend asks: "Hey can I copy your homework?" and you say: "Wait ....a...min. We had homework!!!"
- When you borrow a pen from someone and see it's the same pen you recently "lost"!!!
- Everything becomes funnier when you're not allowed to laugh and that moment of controlling your laughter makes seriously a big stomachache.
- Everyone must have said this when a teacher points at you and you look behind and then say:"Who? Me?"
- The greatest truth of school life:

A first bench student knows the answer of every problem...  
 But a last bench student knows how to face every problem...

Lastly, my juniors always remember that,  
 Someday everything will make perfect sense. So for now, laugh at the confusions, smile through tears and keep reminding yourself that everything happens for a reason.

**Manisha Yadav**

**CREATIVE ACTIVITY**

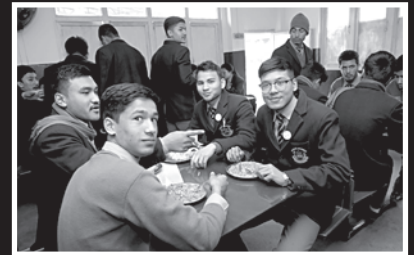

**WHAT HAVE I  
BECOME IN PRASADI**

A more stronger have I been  
 Or weaker have I developed  
 A more serious have I been  
 Or rude have I become  
 A more mature have I been  
 Or foolish have I become  
 Have I been wise?  
 Or lot a thing have made me dump  
 A more freakish I am becoming  
 Or more I totally numb  
 A sugar coated hero in own eyes  
 Or a bitter person I have been  
 Am I being judgmental?  
 Or this is the way I am seen  
 In Prasadi!!!  
 Wishing you the last bye.....  
 Proud to be Prasadian!!!

**Mukesh Mani Tripathi  
M10**

## PRASADI: A SEA OF DISCIPLINE, MAINTAINANCE AND INSPIRATION

After passing my SEE, I was suggested to study in Prasadi Academy. I became very happy when I came to know that Prasadi is one of the top high schools of Nepal. It was the day of 1st Shrawan when it all began. On the first day when I stepped inside the gate of Prasadi, I felt a bit nervous because it was completely new environment for me. In the crowd of several students, I also started to search my section. The first day will remain unforgettable. The journeys of these two years are very memorable for me. The way how Prasadi delivers its knowledge, discipline and inspiration is very impressive. Being a Prasadian , I

learnt how to manage the time, how to remain indisciplin and how to acquire knowledge. So, Prasadi is the sea of discipline, maintenance and inspiration.

Here are some of the unforgettable dialogues of some of the teachers :

SH Sir: Everyone take out water.

RKS Sir: How possible?

KBP Sir: OK, now students, that's the concept." *Sappae xa*"

BPS Sir: *Kasam Khaera Aae Xa*.

BA Ma'am: Now I will ask you.

SKS Sir: Let us consider.....Talking only, complete yourself.

RPY Sir: Observe it as well as absorb it.

At last, my eyes burst into tears when it comes the time to say goodbye to Prasadi. Goodbyes don't hurt but the thought of never meeting again hurts.

Proud to be Prasadian

**Ankit Keshari**

**B5**

## PRASADI OR PARADISE

So, it all began with this confusion for me. Actually, when I came across the name of the most sought high schools in Nepal, I mistaken Prasadi to be paradise but I didn't know it would prove to be like my hallucination today. I will explain it, my house means heaven to me because there I'm perpetually happy, and similarly Prasadi means a paradise for me because its perfection is blissful.

Telepathy, yes, my meeting with Prasadi seems telepathic because everything started so paranormally with no strong enthusiasm and energy but a hollowness in my heart to leave my parents and at last I was bound to Prasadi as if I was destined to it. Whatever it is, but I thoroughly enjoyed being a Prasadian with a little anxiety or stress, little fun and a huge empathy with the help of incredible teachers and unconvincing rules and regulations. I salute the surveillance of Prasadi and each and every effort of the individual onto it. Talking about my friends, they had been pillar of strength throughout my journey in Prasadi contributing to strengthen me as a result I'm here standing and sharing my successful journey with you.

Now, genuinely at last, I would like to thank the academy coming up with the inspiring ideas to appreciate our goodwill and progress which only motivated the students

to grow stronger. Prasadi has endowed me with never- ending beliefs. Hope you will also enhance yourself in Prasadi.

**Ashmina Lama**  
**B8**

## I ASKED GOD

I asked god for strength  
 And god gave me  
 Difficulties to make me strong

I asked for wisdom  
 And god gave me problems to solve

I asked for prosperity  
 And god gave me a  
 Brain to work

I asked for courage  
 And god gave me  
 Opportunities

I received nothing I wanted  
 But I received everything I needed

**Pranav Adhikari**  
**C7**

## PRASADI : PLACE OF INSPIRATION AND MOTIVATION

I still remember the first day, being very nervous. I didn't speak much but later on I became familiar with all friends and teachers. Prasadi taught me to be self dependent. All the teachers are inspiring and motivating. The style of conducting examinations is quite impressive as well. At first, anyone would feel frustrated because of the pressure of submitting assignments, preparing for exams but slowly they will be habituated in that environment which will make them a civilized human.

The style of teaching and interaction between teachers and students is good. It helps to develop the good attitude. All the teachers motivated me a lot. They are the characters sketched in art book of my life. I am so much grateful to the Prasadi who cared me a lot. It will always be in the heart of every Prasadian. I am honored to say that Prasadi changed my life. All the hurdles and challenges that we

have faced in these two years have built up our confidence to stay awake and challenge our future. Finally, it's been a sad moment for me leaving this institution. The time I had spent inside Prasadi was precious and the time has come to say good bye. What I've learnt from Prasadi were memorable chapter of my life. Thank You Prasadi.  
PROUD TO BE A PRASADIAN

**Utsab Devkota**  
**C13**

## AIM GREAT, STEP AHEAD

Life is a long way to go  
 What happens next you never know  
 Past that fades, returns never  
 However, the imprints last forever  
 There's plenty enough left to see  
 If you dream, you really can be  
 Without pain, there isn't gain  
 Without effort, success is vain  
 Life is a long way to go  
 What happens next, you never know

**Nirvana Maharjan**  
**C6**

## QUOTES OF EDUCATION

- Live as if you were to die tomorrow. Learn as if you were to live forever.  
*Mahatma Gandhi*
- You can never be overdressed or overeducated.  
*Oscar Wilde*
- You educate a man; you educate a man. You educate a woman; you educate a generation  
*Brigham Young*
- Education is the ability to listen to almost anything without losing your temper or your self confidence  
*Robert Frost*
- Intelligence plus character –that is the goal of true education

*Martin Luther King Jr.*

# Pradip Khadka

**Pradip Khadka** is one of the renowned celebrities of Nepalese Film Industry. Born in Kusunti, Lalitpur, he is taken as a hot cake and lines himself among the most expensive actor in the Industry. Pradip, who has acted in about half a dozen movies and have been released four movies at his disposal so far, keeps even keen interest in politics. To add more, he did his +2 in Management from Prasadi Academy and now an MBA degree holder from Lord Buddha College in Marketing wishes to join politics in future. The following conversation with the celeb on the various topics like education, movies, life, politics, and society has been prepared by Prasadians.

**Q: Which is your debut movie?**

Pradip: Well, I started from "Prem Geet".

**Q: How many movies you have ever acted on so far?**

Pradip: Right now..er.. I am going through with my fifth movie. Four of movies have been released so far. The works of the three movies are going on therefore.

**Q: For you which one is your best movie?**

Pradip: "Prem Geet", my first movie, is my best. It is because it gave me an identity.

**Q: Tell us something about your childhood days?**

Pradip: I was born in Kusunti, Lalitpur and there I did my schooling from Nursery to Ten. Actually, I am brought up in a strict environment. Honestly speaking, I hadn't crossed Ring Road and even hadn't seen Dhahara and Pashupati till my SLC. My family members used to drop me up to AVM School as it was my SLC exam center. I would get chance to be out of home and Ring Road when I got chance to act in Nepal Television Show Bhura Bhuri ,directed by Ashif Shah.

**Q. Have you ever acted in music video?**

Pradip: With a great expectation to be renown, at first I entered in the music video field and I did two music videos also. But, it wasn't so as I expected. To be frank, I didn't get the expected outcome so I stopped doing it even though it was hard to get the chance. Then I opted for films for the bigger and better future.

**Q: Was it in your mind to be in the film line at the beginning or you made up later?**

Pradip: It wasn't though. Long time back, when I got a chance in the program "Bhura Bhuri" for Nepal Television, people around my house started talking about me even at the parties. I felt good to have little bit name from that television show. It was the show to make people scape goat "a laughing stuff" .Deep down I had a feeling to have recognition of

my own. So much so that, whenever I used to watch the concert at Jawalakhel, I used to imagine myself being on the stage with a big name. While I was doing my +2, I thought of being an anchor. In that connection, I gave audition for Nepal 1 television. I remember, out of nervous, I couldn't utter a word. Sadly, I was advised to take training for two or three months. I did the marketing for that channel and followed them seeking advertisements for the company. To my bad luck I didn't get chance to appear on the television. Being frustrated, I swerved to be model rather than a program host. Later, I longed for movies.

**Q: When did you start acting in movies?**

Pradip: May be in 2012. Even after doing two music videos, I wasn't offered for the movies. Due to strong desire to come in the film, me along with my colleagues made a team and produced a movie "Thulo Manche". Unfortunately, I was denied a role of hero. So to say, the

lead role of a dance teacher particularly didn't suit me in which, Keki Adhikari was the heroine. I was limited only up to the one of the investors. Afterward, I made a movie "Scape", but a failure one. I worked in that and merely collected experiences of big screen and pasting posters around the city.

**Q: Please tell us something about your educational journey?**

Pradip: I wasn't from an educated family. I secured distinction in SLC. I was the first to score distinction in my school's history and I was the sixth batch. Things are different at present. My sister has completed MBBS and I am an MBA. In school I used to guide my friends. Sadly, during SLC, I was expelled from the exam hall as I taught Accountancy to my friends. Moreover, I would be first in class. After SLC, many of my friends joined science however; being a distinction holder student I opted for Management because I used to think that eventually to manage everything is the task of management. Nobody was there to advise me what to study next. Fortunately, I got admission in Prasadi Academy after a much hustle. In Prasadi, it took me time to fit in the system. Honestly speaking, I was scolded twice or more by Chief Sir because I used to be late for school, long stylish hair and dared to come school applying "GAJAL" in my eyes. Even,

I had experienced various nature of punishment like, I had to "stand up" in front of office and at times I had to do "sit up". Usually, me and my friends were the victims due to our mischievous activities.

**Q: What is the great lesson that you learnt from Prasadi Academy?**

Pradip: Truly speaking, mainly two things: importance of time and hard working habit.

**Q: What do you think is an essential for study?**

Pradip: I think, Discipline is the most important for study. As there is a saying "Study Smart, Not hard" for me anybody can read and write and rote learning is useless. Reading Smart is a most to success. I remember my Mathematics teacher who used to be never satisfied with the marks I would obtain. I used to get irritated by his behavior. More assignments, more practice always more and more..... Surprisingly, after the result once in the morning he called me to congratulate me when I got distinction. Then, I realized the teachers always think about the betterment of the students.

**Q: What you would have opted if not in movies?**

Pradip: After +2 in management, many of my friends chose Chartered Accountancy as it was a trend to do so and BBA was the second choice. Frankly speaking, I loathed official 10 to 5 job. In time I gave up joining CA just because, I wanted to be a boss in future. Then, I joined BBA in Ace Management College. At that mean time, I was suggested to go USA by my kiths and kins, so, I withdrew my admission from Ace College and applied for the USA. To my Bad Luck, I wasn't granted Visa. I re-applied but got rejected by the Embassy. For the first time, I got distressed because till that date, I had never faced failure in my life. On the other hand I lost my six consecutive months of my academic life. Then, in that delirium I joined BBA in Lord Buddha College affiliated to Manipal University, Sikkim, India. It proved to be fruitful for me because of its six months basis of new intake system. Later on I even did MBA from that college. I would take morning classes and on the day I strolled around to seek the chances of being Anchor or model. During my BBA, I happened to meet many people that enabled me to gain experiences of the outdoor life. At that mean time, after my MBA, I made a movie "Scape" but it turned to be a failure one. Out of my frustration, I decided to try abroad Australia. What a coincidence, I got a break for "Prem Geet". Indeed, the offer became the turning point of my life.

**Q: What do you think; your stardom is the fruit of luck or hard work?**

Pradip: Um...I think it is all about timeline. I mean, sometime even a simple effort yields good results and vice versa. And at times, a small input in a right time harvests immensely. My "Prem Geet" proved the same. I was selected for "Prem Geet" among many actors even though I was a novice in the film line. The team found upon me something

who could match their expectation. I did have negative self-image that was of my short height. To my luck, my height didn't matter a lot for the movie. However, I was emotionally strong enough to face the camera without being nervous. Thanks to my flop movie "Scape" which made me experienced one. Interestingly, I was unable to get movies despite three or four years struggle but, I got a chance in "Prem Geet" through the photos that I gave for my advertisement in some magazines. Therefore, we must work hard but I think, we get achievement in a right time. It requires a high level of patience to wait the right time.

**Q: Do you have any secret related to study?**

Pradip: During SLC I worked very hard. I used to study late night and woke up early. I used to memorize the lesson, words and sentences using various memory power techniques. So to say, Smart study helped me a lot.

**Q: In your educational life, did you have any favorite teachers?**

Pradip: Particularly, it was nothing like that. I respected and liked all of my teachers

**Q: How do you find career in the industry?**

Pradip: It is indeed a Herculean's task to establish and brand yourself in the film industry. Thanks to my all the film lovers and my fans, I got a name in the industry and till the date it's pretty good. I must say I am nothing until my fans and the film lovers support me. From my side, I wouldn't leave any stone unturned to give the best in this entertainment industry.

**Q: What is your future plan?**

Pradip: ...er...I will be in the industry for few years giving my best. After that I will be doing Ph.D. ....Um...nothing more than that planned yet.

**Q: What do you think that gives happiness in life?**

Pradip: I think ...Success gives the most happiness in life. So to say, if we got success in the work that we did ...would be more pleasant. However, one should start

working on a new thing for the growth rather than being boastful in their achievement.

**Q: What is the turning point in your life?**

Pradip: Obviously 2072 Earthquake. It was so, few months before the earthquake I had applied Australia for student Visa and the property valuation was about to be taken. The valuation stopped due to the earthquake. At that mean time, while I was in the tent due to earthquake, I got a chance to take audition of "Prem Geet". What I think today hadn't been there earthquake then I would have flown to Australia or so. Hence, the quake became my turning point of my life.

**Q: Please tell us about your achievements?**

Pradip: I got a debut actor award from the movie "Scape" and From "Prem Geet-1". I was awarded by Best Cup. "Prem Geet-2" helped me to be honored with Star of the Year.

this field. If I don't see either of them, most probably I will join politics.

**Q: Why do you wish to be a politician in future?**

Pradip: Rather than getting something, I would join politics to contribute. For that I should be in a position to give something. The prerequisite is, I must have basic things of life at first. I think it is a phase of getting satisfaction doing something for the nation and for the welfare of common people. Definitely, I would be in politics only when I would be in the status of contributing something.

**Q: What do you think one should seek the opportunities or they come in time?**

Pradip: To me, one should create the opportunities themselves. Only sometimes you may get the chances by various others means like friends circles, social relations etc. But, it is an obligatory

**Q: Till the date you came up with a lover boy image in the industry, why not in other featuring types?**

Pradip: For me, first and foremost LOVE is the theme of my movies. Even if family, sports, national, action what so ever movies are made, finally the plot hovers around love. Next, my age, physics, dimensions don't allow me to do the role of father, wrestler or so. Furthermore, I might have some limitations in acting, looks, emotional state and the like. Finally, it depends on producer and what overall I can cater to my audience as per their demand; obviously I would be doing the same. For all these reason, may be the audiences find me in this role. Things could be different in future if I became a producer.

**Q: If so, would you make this line as your career?**

Pradip: To tell you truth, I am enjoying in this line. Till the time favors me and I remain contented I wouldn't leave

to create your opportunities. As there is a saying in Nepali " Bhagya Ma Cha Vanera Doko Ma Dudh Duyera Adidaina" But if you use idea you can hold the milk even in Doko (Basket).

**Q: Please impart us the interesting experiences of your childhood?**

Pradip: I have few interesting childhood moments to recall. In our field there used to be stack of hey. There, we used to play wrestling and at times, we used to get serious injured. Another was, while playing hide and seek, I got trapped in a drawer and my sister didn't have idea to get it opened. Somehow it was managed to be opened and I am saved from being suffocated. I get my hairs up still when I remember that. Likewise, during Dashain, I would be in my maternal uncle's house. The funny moment was to have been fallen from the swing as I used to get excited and swing high as much as possible.

**Q: As it is aired that your movie “Dipendra Sarkar” has been announced. Have you felt any challenges for that?**

Pradip: To be honest, I myself created that opportunity. So, I would love to face the challenges that might come ahead. What I think is, we are still not in the position of competing with international movies but we can compete in concept and thought. If the world can make movies of Hitler, Diana and others, why not we make the movies of the famous personalities of Nepal. In fact, this concept got conceived in my mind long before I was assigned to “Prem Geet”. Even the producers were convinced. But, some of them questioned related with the casting but the concept is different. We are waiting for the right time to start it. We are in hold because of factors like finding directors, Investors etc.

**Q: Are you happy with your present status?**

Pradip: The most difficult thing is to be happy in life. Honestly, I am happy with my present status. I was the same even before. These days, I find myself the luckiest to be liked and loved by many of my fans. Nobody is sure what would happen in future, and I am not an exceptional, but I would be happy by recalling those heydays. To me, the most precious things of human life are memories that would be somewhere deep down in your heart even if you lose everything in life. I would never forget one of my fans approached to me having escaped from hospital and another impressed tattoos of my name. These and many others are in my reminiscences enough to be happy ever.

**Q: What is your plan about marriage?**

Pradip: I am told that to remain in the industry being hit, merely likes of the audiences aren't sufficient but they must love the artist. To my privilege, I am

being loved by my audiences; therefore I don't like to break their hearts by getting married early. Let them all get married first, and then definitely, I would.

**Q: What do you prefer arrange or love marriage?**

Pradip: I don't have a water tight principle related to marriage. Nevertheless my family's happiness keeps a great value in my life. Therefore, I would seek their acceptance and happiness when I get married.

**Q: Except shooting, how would you spend your days?**

Pradip: If I am not in film works, I will be doing other house hold works. Sometimes, I hang out with my friends and watch movies. I meet my relatives and social friends. Frankly, I am not keen on reading books.

**Q: What things sadden and please you?**

Pradip: Nothing particularly makes me unhappy. Sometimes, people don't realize and appreciate my hard work and create challenges for me with much negativity upsets me. Otherwise, my almost all movies are hit which are just enough to make me happy.

**Q: In your opinion, what is a necessity for making a good decision?**

Pradip: This is a good question. Obviously, a good heart. I think a decision that is for the welfare for many is the good decision and it's fairly easy provided you have a kind heart. A righteous person never thinks and expects bad for others.

**Q: How do you take Nepalese entertainment?**

Pradip: Nepalese entertainment industry is in growing phase. Compared to the past, it is better. I wish, it would progress and even international audiences would watch Nepalese movies. I hope the time will come to represent ourselves along with the industry in the international platform.

**Q. How are you managing your time with your family?**

Pradip: My family members are happy with my present status. It wasn't so before I came in this field. I would be stubborn in many of the cases. I recall the time when I ran away from home because my parents denied buying a motor bike for me.

**Q: How do you feel about your stardom?**

Pradip: Frankly, I don't prioritize much to the stardom. I love acting and to watch movies. Most of all, I think I watch my movies because I am flabbergasted to see myself on screen. It's a pleasing matter to get love from audiences which, for me, cannot be bought by money. I feel good when the audiences watch my movies and appreciate my work through Social Medias. Truly, such love is precious to me more than anything else.

**Q: Being a famous actor, how are you performing your social responsibility?**

Pradip: I start with a reference to Bollywood: Amrish Puri was slapped by an old woman in a village during a film shoot. For the woman, he troubled a lot to the heroes. My point is, people favours what we do on screen. Therefore, I am very aware of not doing anything that would create a negative image of me. I have a dream to do such films where the main character would be the one who loves his family, respect people, take love matters seriously, doing something for country, a very positive in all respect and the like. I make sponsors involved in the social works, who trust me.

**Q. How do you define happiness?**

Pradip: To me, a true contentment comes only if a person is satisfied with the things he or she has. It also depends

on the perception to view the things. It's simple, one has to be happy with the things s/he possess at the moment which many others don't have. On the contrary, it's not good to feel bad comparing yourself what others have which you don't.

**Q. What makes a person failure?**

Pradip: If you start cheating yourself, I think, there failure starts in one's life. Hence, hard work and dedication towards the work are the prerequisite for the success.

**Q. In your view, how a life becomes meaningful?**

Pradip: I think, life is meaningful only if we do something good for others.

**Q. Please share us your weaknesses.**

Pradip: Sure....I trust others and get brain washed by them easily therefore, I have been cheated in several occasions.

**Q: How do you inspire Prasadians? Or, what is your message to Prasadians?**

Pradip: Truly speaking, I am proud to be Prasadian. For my success, even credit goes to Prasadi its discipline, care, guidelines, method of teaching. It is always the best the way Prasadi grooms and guides the students. It is equally highly appreciable the educational environment it provides to the students. At last, I wish Prasadians all the best in your every endeavor. Do good, Study hard, get the best.

MEMORIES:

Here, the time came to say Goodbye! to Prasadi. In this two years of journey, I had many memories which can't be illustrated in a single sheet of paper. The most important is I met the same insane people like me who'll always be in my little pumping heart. I learned the beautiful life lessons. The first day, became my good friends Bangam & Smaritica said 'hami ghagada nagari' buni ra tu baera badi' laughter, hiding while asking questions. These tiringful days of completing h/w, unexpected bag checking.

MESSAGE:

"All our dreams can come true, if we've the courage to pursue them" - WALT DISNEY  
 Best wishes for those who believe in struggle.

 Email:- bozati\_agrima@gmail.com  
 Memories:- Not knowing what to expect led us to making memories for life. frequent bag checking, late H-w submission, classes are what probably everyone has gone through but I earned some very carfree and precious gems in these two years. I had some problems in getting used to in the first year in the latter. Getting as stupid as we can and pretending to listen and understand in class is what I have to admit singing your hearts out and thinking of you. Tube links to road after getting home and inside jokes we used to laugh like crazy during lectures.  
 Message:- Present is all you have so live it to the fullest, future is yet to come. What I mean is just chill, you'll get through.

Name: Rashmi Giri  
 Grade: XII Sec: M11 Code: 7963  
 e-mail: rasmigiri04@gmail.com  
 Memories: Each & every moment in Prasadi is memorable. The journey from 'D1' to 'M11' is really unforgettable.  
 It was such a great fun. The memories cannot be filled or expressed on a sheet of paper.  
 Message: Be positive and success will lead towards you  
 Sign: Rashmi

Name: Prakash Thapa Xetri  
 Grade: XII Sec: M11 Code no: 8310  
 Email: prakashthapaxetri@gmail.com  
 Memories: There are lots of memories which I have experienced in Prasadi Academy. With lovely peoples, lots of backgrounds, naming the friends RT sir My best Our picnic was awesome.  
 My partner. Best part of my life.  
 Message: Live your life !!!  
 Sign: Prakash

Name :- Ashisha - Gurung  
 Grade :- XII Sec :- M11 Code no. :- 8034  
 Email :- gurungashisha18@gmail.com

Memories :- As a morning student in grade 11, it was really fun. You would have all day for yourself. As day shift was compulsory after 11, firstly I didn't like it much. But after 34 months I found it more fun with all my girlfriends. They are the best people. I have ever come across all my life.

going out together after classes everything was fun. More than the education that Prasadi provided us, I appreciate that it provided me some good friends.

Message :- No matter whichever college it is, the only thing that's going to make your college life beautiful and precious are good friends.  
 Sign: Ashisha

Name :- Sagar Thapa  
 Class :- 12 (M11) 11 (D3) Code :- 8250  
 Email :- sagurapple11@icloud.com @-stdkem

Memories :- Almost all those times spent as a Prasadian is unforgettable. 2 years out of a lifetime is short. However memories collected as Prasadian is sure to last 2 centuries (at least for me) :-). I wish I could be a student of D3 again. Really the best memo I've got.

Message :- \* Try it yourself to enjoy in Prasad.  
 \* Do take senior's advice

P.S :- I've got too many memos and messages to share but space is limited to 10.5 x 9.5 :-). Enjoy

Sign: Sagar

Name: Sushil Subedi  
 Grade: XII Sec: M11 Code: 8061  
 Email: sushil.subedi8061@gmail.com

Memories :- This small piece of paper isn't enough to include all my memories in PRASADI. Shouting in class, cracking jokes during lectures, irritating teachers are the things worth remembering. Asking for excuses for not doing homeworks, those angry faces of teachers will always be in my mind. The company of my friends who never let me do bad and stupid things ALONE will always be in my heart and memories.

Message :- Don't take your study as a Burden  
 Sign: Sushil

Name: Srijan Aryal  
 Grade: 12 Sec: M11 Code: 8299

 Memories:  
 It's been two years in Prasadi but I don't feel like our time has ended in Prasadi. From grade 11 to 12, each and every moments are recalled in my mind but I don't think that it will fit in this 10.5x9.5 paper. I had so much fun in Prasadi. In every period, talking to friends, laughing.  
 Every teacher's face is shining in my mind and always will be. The ecstasy in picnic is unforgettable and also dancing like mad from college to picnic and again at college. I'm gonna miss those days.  
 Message: learn and enjoy the beautiful garden of the education and at the end of the day the result will be fruitful.

# MESSAGE FROM THE CHIEF

**Glorious successive 20 years** are the long and proud history of Prasadi Academy for delivering an innovative, and par excellent education for the students of Nepal. We have always believed that a specialist institution, where teaching and learning take place in a caring environment, offers a uniquely relevant place for students wishing to develop their talents and enter the competitive world of the creative industries. Our students succeed because they are both nurtured and challenged to explore their true potential.

In this connection, I'm very glad to see my students' enthusiasm in publishing "**Prasadi Souvenir 2075**". I believe that such creative involvement of the students not only helps them to broaden their knowledge but also exposes their core talents and potentiality. The literary piece; poems, articles, essays, travel accounts and their odd and even experiences, inside this souvenir would become the moments to cherish later.

However, we are never complacent and we are constantly looking for ways to improve, in order to serve our families and the community with the very best education to offer. I am confident that we will, with the support of our community, continue to thrive and prosper despite a transitional phase of educational scenario in Nepal.

Finally, I, here by, offer special thanks to the faculties and students for bringing out this souvenir as the continuation of our academic culture this year too. All of the activities of writing, computing, compiling, editing and giving to it a final shape are truly commendable.

I wish every success to my entire students.

Thank you!

A handwritten signature in white ink, appearing to be 'Bikram Rai'. The signature is stylized and fluid, with a long horizontal stroke at the end.

Bikram Rai  
Chief
