PRASADI SOUVENIR 2078

EDITORIAL

It's our immense pleasure to present the "Prasadi Souvenir 2078", the school magazine of Prasadi Academy. Its objective is to provide the student an opportunity to learn the skills of written communication. It is also a means for the prasadian to express themselves, cherish memories they had in Prasadi Academy for two academic years.

This magazine carries a beautiful creation of our Prasadian, a collection of photos from different events, class photographs of the respective sections, experience sharings, and achievements which are definitely going to be nostalgic for Prasadian.

We are fortunate to have supportive management, dedicated students, committed teaching and non teaching staff which blend harmoniously to bring up exhilarating flashbacks, the events and achievement during the session 2076-2078.

We hope you enjoy this new edition, Happy Reading!

The Prime Minister

MESSAGE

I am delighted to know that Prasadi Academy is publishing '**Prasadi Souvenir 2078**' on the occasion of its 24th anniversary. At this juncture, I wish to thank and congratulate all members of the Prasadi Academy who have rendered their valuable support to publish the souvenir.

Prasadi Academy is one of the reputed academic institutions dedicated to impart quality education to its students since its establishment. Over the last two decades this academy has produced thousands of qualified human resources who are engaged in different fields of the society both nation and out of the nation. It is a matter of pleasure that the students produced by the academy are performing better in their professional life and supporting to promote the sector where they are engaged in. I appreciate the academy, its entire management and academic team for maintaining quality and producing globally competent human resources in today's competitive education market. I would like to express my best wishes for the continued progress of the Academy.

Education is critical not only for the growth and advancement of a personal life but also equally important for a country to prosper and move ahead, Development can be propelled and sustained through skilled, educated and disciplined human resources. Considering the great importance of education in our personal as well as social life, the Constitution of Nepal has recognized right to education as one of the fundamental rights. Government of Nepal is dedicated to provide quality education by increasing, access of all citizens to education. In this regard, support and contribution made by different academic institutions such as Prasadi Academy may compliment to government's efforts to ensure the goal of education for all.

Finally, I believe that the Souvenir will be useful reading material to all. I wish to express my best wishes for the grand success of the publication.

Jay Nepal!

MESSAGE

I am pleased to hear that **Prasadi Academy Secondary School**, Lalitpur is publishing it's "**Prasadi Souvenir - 2078**" on its special day of completing 23rd successful years of journey as a pioneer educational institution.

An educational institution to be valued when it shaped itself for systemic transformation of knowledge, skills and cultural values in learning processes. Over the years, this academy has been working with proven track records, is an exemplary for overall development of students with outstanding performance.

I congratulate to all teachers, school management team and others who have worked steadfastly to bring this institution in a mode of a center for excellence.

My best wishes.

Dr. Mahashram Sharma
 Chairperson

PRASADI: THE THEATRE OF DREAMS

Prasadi is not just a school, it is a feeling; a feeling of love, wisdom and discipline. It is a place where our dreams are shaped. The finest architects to shape our dreams are provided by Prasadi. Prasadi not only teaches us to be good learners but to be a disciplined learner. Prasadi nourishes the students very well. It cultivates a sense of generosity in students. Prasadi surrounds us with motivating personalities all the time. Here, the teachers are the source of motivation, love and generosity. Everybody in Prasadi is willing

to learn one thing or the other all the time. So, Prasadi develops a will to learn. It gives the environment where everyone feels secured. Moreover, the school creates the sense of humanity in students. Teachers make the teaching and learning process very effective. Besides this, Prasadi teaches us the skill of time management. Everything in school has to be on time. Likewise the love showered by the school is unforgettable. Prasadi gives you the millions of happy moments. It is a place where we learn to share laughter. Not only laughter, but it is a place where iconic ideas are exchanged. Prasadi is, was and will be a place for big dreamers. It will always remain in the heart of students as a place of love, nourishment and care. Prasadi holds everyone's heart and someone who walks past it will miss it.

MY JOURNEY TO PRASADI

The two years of journey will be two years of adventure learning and exploring new things with really experienced and cool teachers also with really supportive and talented friends around you. Environment is so silent that you will find yourself being calm and peaceful. Journey to Prasadi has taught me a lot. Most important lessons I learnt was the importance of hard work in order to uplift yourself and patience while pushing yourself forward and crossing the limit you settled for yourself. Here, I find happiness in every small things like small gossips with friends everytime teacher started writing, like a small trip around school on 20 minutes of short break. If any way you find Prasadi boring that clearly indicates you are boring yourself.

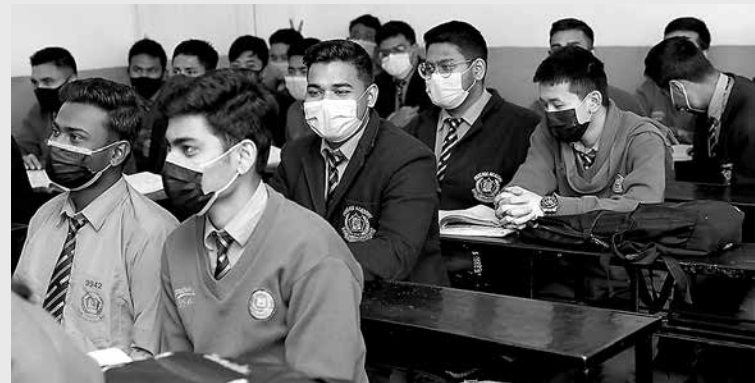

Samikshya Oli
R9

MY FIRST DAY AT PRASADI

Life is full of strange experiences- good and bad, happy and sad. Some of these experiences are just unforgettable. I can never forget my first day at Prasadi Academy. It was a day of thrill, joy and excitement. Wearing Prasadi uniform I entered the college gate with my roommates. I was feeling proud to be Prasadian because I had heard many good things about this school. I entered the class by thinking that first day will be introducing class, there will be no teaching. But I was totally wrong, our course started from first day which was the most surprising moment of all students. Though the beginning days were struggling and tough to adjust, eventually it became interesting and comfortable to adjust with inspiration, care and love from teachers in Prasadi. We will know its value after graduating from Prasadi. It is the best place to show talent and improve education.

Rohit Pajiyar
R3

A STUDENT'S LIFE IS A GOLDEN LIFE

Here I am with a salute to Prasadi Academy for the showers of blessings we have received from here for the last two memorable years. It is such a pleasure to share the intensity of emotions as the students graduate every year and close this chapter of their life's story to our high school and open the new chapter of their life in the world. The memories become part of their life. For many of us, the days spent in high school are the happiest and the best days of our life. The very memory of school days fills our minds with nostalgic memories of happy days of yester years.

"A student's life is a golden life." I feel this because I have spent golden years of my student's life in Prasadi Academy. It was during those days that my personality was moulded in the gracious hands of my teachers. The facilities provided, the dedicated faculty of the institution and the personal interest taken by the staff and management has played an important role in the name that the institution has made for itself. It's an exciting moment for all those who had the benefit of studying in Prasadi. I am confident that this great institution will groom the

students in taking up positions as leaders in the future of our country. Education doesn't just mean learning, writing or collecting knowledge but according to Prasadi Academy, it is achieving development of the students from all the angles. To bring out the real talents is the real meaning of education.

It's a matter of great joy for us to see the growth of our high school during the past twenty three years. Our high school is successfully marching ahead, imparting quality education to thousands of students, fostering both human, intellectual, spiritual and moral values. It has made it possible for all those who have passed through the portal of this school achieve excellence in character and service. The excellent results secured by Prasadi almost every year indicated the academic standards the school has maintained. Thus, the vision of the founders has worked miracles.

Dear parents, family members, teachers and staffs, chief, students, the alumni of Prasadi academy, it is an honor and unforgettable memory for me to be the part of Prasadi souvenir. May Prasadi reach further heights in the days to come. I pray to the almighty god that this school becomes the beacon of light to all the students who study in this school.

**Puja Kharel
R9**

ME AND MY PRASADI

In the beginning, I was afraid of thinking what would be the education system and other students who can be very talented and competitive. It doesn't mean that I wasn't ready enough to study in Prasadi and I wasn't trying to run away from that challenge which kept in front of me by my father, mother and sister's choice. As I was also very much ready, interested and excited to go to Prasadi by wearing well ironed uniform.

If I have to talk about my first day, I was late due to tiredness. From the gate to the classroom in the distance of 10-15 yards teachers were standing to show the way to the class. When I entered to the classroom, it was full of students and was very different than my previous school's classroom. The first class was of RL sir who started class quietly. He just introduced his name in short form i.e. RL. Also, he made us fun with a very short verse of song. I still remember SKK sir. He looked very heavy and tall with very hard voice.

YRR sir's way of teaching of Accountancy was interesting. RKS sir using 'yes' after every

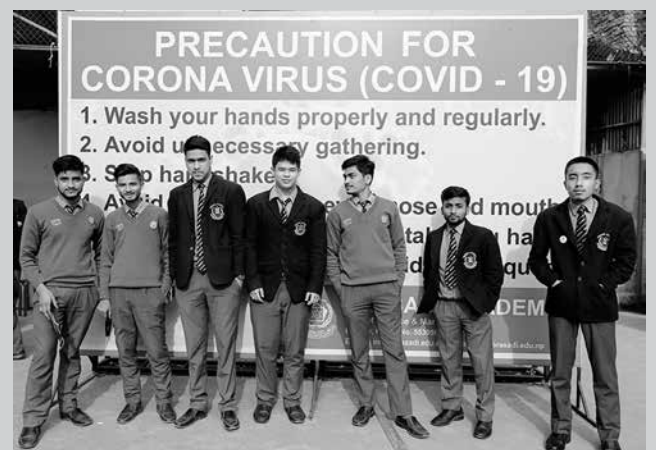

sentence is memorable. I still remember reaching Prasadi in 5 min in one and only exceptional case i.e. being late but it normally takes me 10 min to reach the school despite the way is of 15 min. And another memorable thing on the way to my home from school is Guru Sir and Panthi Sir used to check us even in the road side whether we are

walking through the path or not, whether we are doing unnecessary activities. I appreciate their such effort to make us go home straight and safely. At last, I like to say that if you want to have success and be a Prasadian, respect, listen to teachers and simply follow the rules of Prasadi.

**Samir Lama
Q4**

BEING A PRASADIAN

I still remember my first day in Prasadi. Getting up early at 5:00 a.m. and getting dressed with new excitement is still running around my mind. It seems just yesterday when I entered the gate of Prasadi for the first time. On the first day, before heading to Prasadi, I thought I and my friends would be asked to do our introduction and there won't be any studies on the first day. But surprisingly that just remained in my imagination. Our first period teacher told, "We are not doing any introductions because we will slowly know all of us while studying. So, open your book and turn the first chapter." It was a great surprise and funny thing to me. Prasadi was different than my thoughts. Teachers' seriousness while teaching, giving attendance two times a day was different than my thoughts. RL sir's "1-2, 1-2-3 ,Go" and YRR sir's motivational

speech is unforgettable. Our Chief is a motivator who motivated us when we felt down.

I learnt something new each and every day at this place. The smile on URT sir's face always gave us positive vibes. RL sir and YRR sir were quite funny. In this short journey of two years, I experienced both online and offline classes in Prasadi. I feel so bad that we didn't get chance to live grade XII properly in Prasadi due to Covid-19. The last five days of every month is alarming clock for us to prepare for monthly test which was helpful to track down our performance on studies. Those friends who made my every moment more precious and unforgettable and their help and support are my best memories. Lastly, Prasadi will remain in my heart forever and won't be forgotten in my whole life. I promise, I won't forget all the knowledge I have learnt at Prasadi being Prasadian.

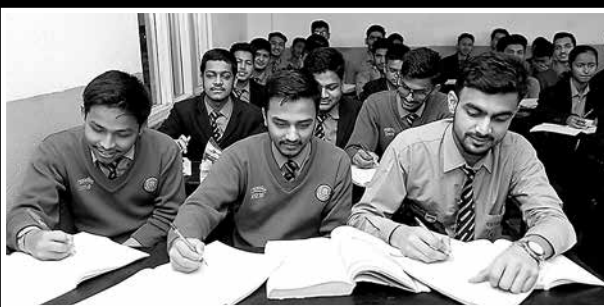

WHY PRASADI?

It was not hard for me to choose Prasadi to pursue my education. All my older siblings are Prasadi alumni, considering their success, it was not hard for me to follow their footsteps but it wasn't always as straightforward as that. A lot of my school friends asked me, "Why Prasadi? the rules and regulations are so strict." I didn't have any answer for them back then but now I do. Those strict rules and regulations made me understand the pleasure of being within the margins of discipline. Being a Prasadian, every moment of Prasadi trained one to have self-control, to stay disciplined not only to the rules of school but towards my life goals as well.

My memory of Prasadi is a line that a teacher told us, "Everyday is a working day." Then I realized my high school life has begun. Those hurry while getting out

from micro van to school gate just to be on time, bag checking, homework checking, these things are not just memories; it also taught me time management. The environment Prasadi provided, those regular monthly test, terminal examinations made me focus on my goals, helped and guided me to aim for my future. When I first heard that we will get only 20 minutes break for lunch and refreshments, I was shocked thinking how I was supposed to have lunch, get refresh all within 20 minutes. But surprisingly after few months, I managed to have everything within that 20 minutes including those beautiful moments with my friends.

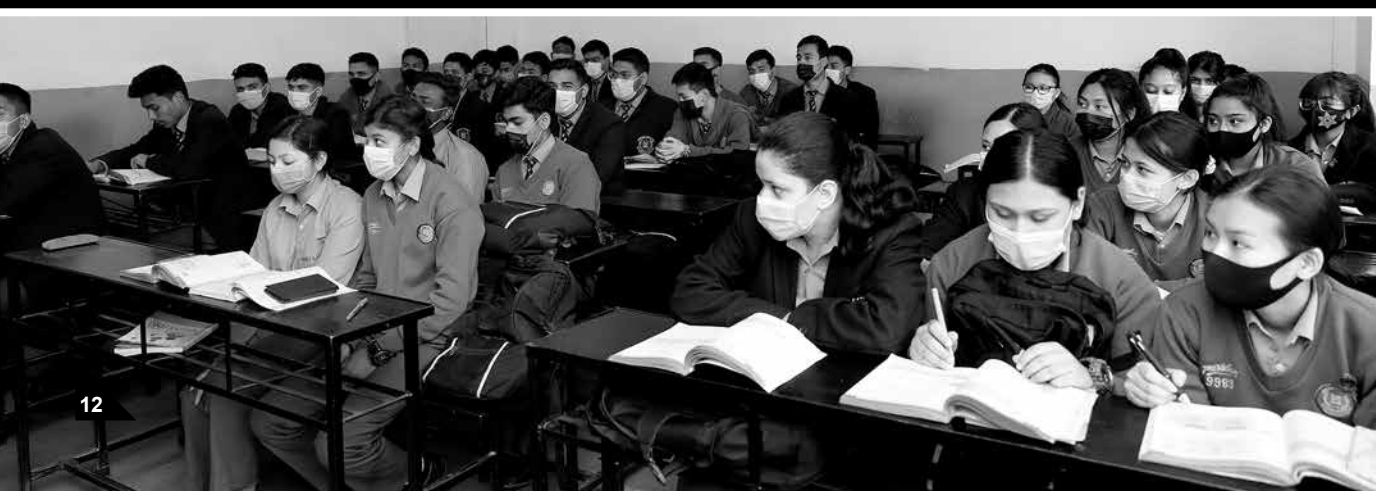

When COVID-19 hit the world, my journey to school turned upside down. The school shut down in March and all the classes shifted to Zoom online classes. At first, it was arduous to stay engaged. I quickly started experiencing “Zoom exhaustion” from staring at my computer screen all the time and lack of interaction with teachers and other classmates but soon I realized that I worked most effectively by imagining that I was actually in the classroom, this meant taking notes as the teacher spoke, asking questions and giving full attention during lecture time was the best way for me to stay on pace for all my classes. The strict rules for mapping and attendance made us join online classes at a punctual time.

Pandemic brought lots of obstacles on our way but hats off and lots of respect to our teachers for working so hard during that time to give us such a good environment by conducting proper online classes

along with warm-up classes before board exams. Back in those days, I found those rules and regulations strict too but now I believe those made me a disciplined person and taught me the importance of punctuality and discipline. These are the things that make Prasadi unique. Choosing Prasadi is the best decision I made. By the time you read this, I would already have been Ex-Prasadian and moved on to the next challenges of my life. Of course, it is a sad moment but I consider it is a proud one as well, knowing that I am prepared enough to face all the challenges that may come in my way.

Every moment spent in Prasadi made me write a new chapter of life book with many memories. And yeah! now I can proudly answer “Why Prasadi?”

Ritu Malbul
Q1

ROLE OF MEDIA IN TODAY'S SOCIETY

Primarily, media is the technology facilitating the citizens of a country with the creation and sharing of information and ideas via virtual communities and networks. Users can create highly interactive platforms through which individual communities and organizers can share, co-create, discuss and modify the content posted online.

In the recent years, media has played a pivot role in knitting the fabrics of Nepalese Society. In fact, it has transformed our society from naive to a more matured indeed, helped us to encourage the sound rituals vanishing away all the immoral rituals.

After forming a network, one starts to interact with other people in the society and share their ideas and opinions creating a sense of awareness amongst the people who were once severely ignorant of significant matters of the society. Social media these days has also become a strong weapon to attack one of many social evils; inequality.

People from under privileged society are chiefly suppressed by the upper class people. Such oppressed innocents are also taking up their cases to social media breaking down the walls of tyrant. Therefore, it cannot be ignored as it plays a crucial role in our lives today. The effect of media is reaching far and wide either making or distorting a person's image.

Thousands of people are making money with the help of social media. This way, media has opened new employment opportunities as well. Media also helps us connect with friends, relatives and also make new friends.

**Urshala Dangol
Q4**

WAIT! WHERE IS OUR EDUCATION SYSTEM LEADING US.....?

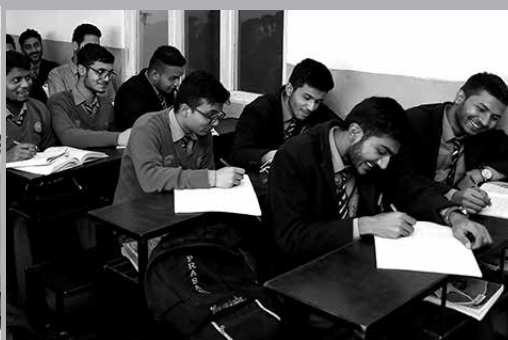

'Teacher centered one way traffic' is still the dominant teaching method in Nepal where we still judge the students for their capacity to do the 'mugging' of the content and 'vomiting' of the answers in the booklets.'

Various pedagogical approaches are adopted to strengthen the students physically, mentally, socially and emotionally so as to enhance their holistic development. Education widens the horizon of knowledge, equips with required life skills and multiplies rational capacity and competence. We expect education to inculcate the values of life in the learners, nurture their interests and inspire them to live meaningful life.

We have education as the door of civilization. However, are the students really learning what they need to learn and how they need to learn? In my opinion, 'teacher centered one way traffic' is still the dominant teaching method in Nepal where we still see that students are judged for their capacity to do the 'mugging' of the content and 'vomiting' of the answers in the booklets. Can such education enrich life? Can it transform our societies? Is education just for a degree?

Yes, life is of course a better teacher for man than the pedagogical practices. We learn to live what life teaches us. The experiences of our life strengthen and empower us for every hardships, traits and tribulations of life and for every leap and climb of we make in life. However, as degree is the requirement to knock at the doors of job market we need to acquire a lot of life skills too.

We have seen that many talented students are learning to earn and earning to learn. Their consistent struggle teaches students more than what academic institutions and their curriculum do. Education should make students to arouse never quenching thirst of knowledge and excellence in them. Education system should enrich their academic molding and teach students how to learn, how to explore their own hidden potentials in order to take the road not taken and to reach the unreachable. It should strengthen the wings of the students to fly beyond what is imagined and to reach there where it is thought to be inaccessible. Education should

PRECAUTION FOR CORONA VIRUS (COVID - 19)

1. Wash your hands properly and regularly.
2. Avoid unnecessary gathering.
3. Stop handshakes
4. Avoid unnecessary use of mobile
5. Stay at home

inspire people to live a meaningful life not just adding years to life but to adding life to the years.

In sum, all our educational attempts should facilitate the students to learn those things that motivate us to keep pace with time. Instead of locking them within the narrow confinement of classrooms; that is the world which is outside the narrow classroom. Success in life is far more important than success in narrow classroom. Hence, I am extremely privileged to be the part of Prasadi Academy where we are taught the meaning of life and enrich us with all the essential life skills rather than promoting mugging and vomiting system.

Kaushik Raj Ghimire

PRASADI : A BEAUTIFUL MEMORY

High school: Really an amazing place. First we didn't want to come and today we don't want to go. It is said that, if you don't do anything funny or stupid at your high school life, you will not have anything to remember and laugh at your old age. And yes, we have also created so many memories and done so many stupid things and activities knowingly or unknowingly which are the best memories ever created in our life.

That awkward moment, shouting the wrong answers so confidently. We will always remember the happiness and memories of high school and teachers' unforgettable scolding and touchy lines. I still remember the scolding of RL Sir when I forgot

to bring English book for first time. We will always remember GT Sir and URT Sir and URT Sir's killer smile, RL Sir's sudden laughing and how could we forget his motivation and BBT Sir's saying "Do la class work do, still one minute left." Some things are always unforgettable inside Prasadi like surprise bag checking, monthly tests, no leisure period and GT sir calling "Yesterday Absentees".

Today remembering those days brings tears of happiness. To bid goodbye is really a tough job to do, especially to those who are really close to us.

Yes,
 You are going to be replaced.
 Your presence will be replaced by memories.
 Your nasty talks will be replaced by chats.

Your reasonable fight gaps will be replaced by reasoned busy schedules.
 Your unbearable pranks will be replaced by killing memories.
 These two years of memory and experience is unforgettable. Prasadi was the best ever decision of my life. Once a Prasadian, always a Prasadian.

Seemon Subedi
Q1

Thank you Prasadi!

I am so glad that I made a right choice joining Prasadi Academy after my SEE. It is the best institute for learning in a homely environment. Thank you Prasadi! Proud to be a Prasadian.

Pankaj Sah
Q3

PRASADI: A SETTING THAT TRANSFIGURED ME

I still remember my inquisitive eyes, curious heart, eager mind and a nervous exterior walking towards the entrance of the place which was completely new and strange to me. I was born and brought up in Itahari. I had spent sixteen wonderful years of life there. It holds a special place in my heart not just because it's my birthplace but because there lays my comfort zone and leaving my space all of a sudden to start high school, a completely different phase of life was frightening. As I walked into Prasadi, the place where I knew I had to spend two years of my life, I could think of nothing because I was highly anxious. I stood in one corner, agitated and alarmed, when a girl came to me and introduced herself cheerfully. Little did I know, that the first girl I met in Prasadi would be my best friend. I had a really nice first day meeting. Lots of new people came from different places. I wasn't nervous anymore because in two years, those strange faces turned out to be family. Our class had a sort of unity that was unspoken about. From joking around about each other to having each other's back, all my classmates grew up together with me. I had so good company of my pals that I started seeing life from a varied perspective.

I was an insecure person who used to be so timid to be around new people, I was selectively frank with people but Prasadi actually did transfigure me. It made me unleash my outgoing and extrovert side of me. Now, I am pretty confident when it comes to meeting new people and thanks to all set of conditions and setting of Prasadi, that allowed me to explore a different version of myself.

There's a special credit I would like to grant to this wonderful place and that's for making me more disciplined, hardworking and patient than I ever was. People used to talk about how strict Prasadi is and stuff like that but I think they were bound to make that area strict because grade 11 and 12 are the most crucial phases of our life and if in this phase, students run out of track then it becomes difficult to bring them back. I am thankful to Prasadi for shaping my life in more disciplined and creative way.

I am leaving this place with tons of memories I made with mates who turned out to be like family, teachers who turned out to be like parents and staffs who turned out to be like our brothers and sisters. Of course, I will have to walk away from this place now to start a completely different phase of life but I promise myself, I will carry the identity of Prasadi everywhere I go in my life and stand out in every field. Although, two years isn't such long period of time but the memories we've made in these two years are worth cherishing for longest time possible.

A big hug to Prasadi family as I walk away as a completely differently individual, a better individual and a content individual.

**Eliza Shrestha
Q2**

MY EXPERIENCE AS A PRASADIAN

I don't know how these two years passed this fast. It passed like a blink but left a lot of memories. To be honest, I never wished to study in Prasadi. However, I ended up studying at Prasadi which was my own decision. I thought that it would be boring studying at Prasadi but it was totally different than I had expected. It was really interesting spending my two years here. I was little nervous at first day of school but as I am an extrovert person, I made many friends on first day and those friends are still by my side. We didn't get much chance to enjoy grade 11 due to lockdown but we at least spend 8 months having fun. Our two years in Prasadi wouldn't be fun if there weren't teachers like RL Sir, YRR Sir and others. The interesting teaching techniques of RL Sir, his sudden

laugh, his drawings and the moment when he goes inside the character of the story of the book. There are many things that I would miss. Some of them are BPP Sir's "Yesterday's absentees." SKK sir's motivational speech, uncontrollable laugh in RKS sir's period, convincing teachers to take us to picnic and the day when RKS Sir didn't let us go home because we packed our bags 1 minute earlier. Time and tides wait for no one. Feels like it was yesterday when I took my first step in Prasadi but two years have already passed. It's the end of my high school journey. My journey from V2 to Q1 ended in a blink of eyes. At last I would like to thank Prasadi for all these memories and friends who are precious parts of my life. I love Prasadi. Once a Prasadian, always a Prasadian. Without hesitation, I can say "Proud to be a Prasadian".

Kashu Thapa
Q1

AU REVOIR

The most exquisite kind of melancholy; departing and bidding is tougher when the memories you and I made are going to cling to my every reminiscences. Rewinding every memory won't do anything but stimulates the ocular surfaces causing parasympathetic innervations of my lachrymal gland and induce tears. The tears filled with nostalgia and the sad musing gaze goes perfectly with the song "Feri Bhet Nahola Samjhiraakha hai!!!....."

You literally cling into each pieces of day,
You vibe to each ounces of water I drink,

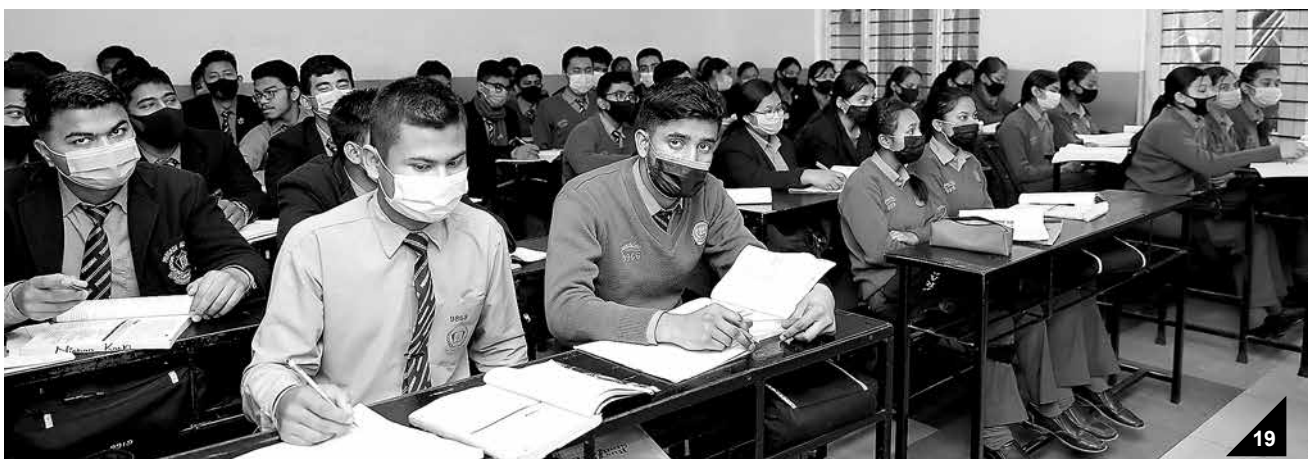

You coalesce into every inches of my imagination! "Farewell" sounds so much of melodrama- curtains are finally coming down on our couple of years stint- Unbelievable how time flies! Tears shining in our eyes, sweet memories of our meeting remain etched binding us in everlasting love.

Thank you Prasadi! I am in state of euphoria with spontaneous pride of having received education here! No amount of praise will do justice to my teacher's patience, efforts and attitudes. Those days giggling at Hamal's sir's best sense of humour, appreciating SR ma'am, how beautiful she is! Being victim of SP sir's example, yes I too laughed at GS sir's joke. Those songs sang in the darkness during the last is the best memory! KBP sir's "use your master plan." AD ma'am's "okay dear". BA ma'am's "get by heart, get by heart." Pretending to be attentive in physics class which all the time went over my head. You will be badly missed dear teachers! You teachers are like galaxy of stars shining and paving our way towards our goal and wishing us to reach acme of success.

Here's to hoping it is au revoir.

**Sonia Karki
R2**

SOCIAL MEDIA ADDICTION TAKING ITS TOLL ON YOUNGSTERS

In this age of internet and social media, we are persistently flooded with free information coming from every direction. More than a billion people are repeatedly making status updates on Facebook, the most fashionable media platform today.

There is no problem and nothing wrong with using social media. Some people use it to check updates from their friends and to stay connected. Some people use it for entertainment and to kill time. The problem comes when someone becomes addicted to social media and overspreads their time on it; as a result their bad habits seriously hamper their lives in a negative way.

Social media addiction is a term that is often used to refer someone who spends too much time on social media like Facebook, Instagram, Twitter etc. As a result, it affects the person's daily life. Although there is no official medical recognition on social media, it has become a subject of much discussion and research.

A significant number of Nepali undergraduate students are found to be suffering from sleeping disorders due to their addiction on internet. Research was done on 937 student from 20 undergraduate campuses. According to study, 35 percent were found to have internet addiction and sleeping disorder including insomnia. Similarly, 21 percent of these students were found to be battling with depression. Studies show that young people are spending increasing amount of their time on social media. Psychiatrist, who reported seeing at least 10 instances of social media addiction a week,

says; the addicted are anxious about missing updates in their social circles and tend to stay awake past midnight to check their accounts on Facebook, Twitter, Youtube or Instagram. They crave for attention from peers and seek validation when they frequently post images and selfies.

A large majority of young people are being negatively affected socially and academically, we just chose not to do anything about it because social media is assumed to only be a positive force. Young people

are experiencing effect such as internet harassment, privacy exposed and consuming harmful content. This impacts on their academic performance, social lives and their health. Students who are logged on social media while studying get insignificantly lower grades than those who do not. People who did not use the site devotes more time on studying, spending an average of 88 percent longer working outside class.

Here is another reason to stop excessive use of Facebook and other social media; orthopedic expert

have warned against cases of wrist and finger joint pain and arthritis, repetitive stress injuries to hand, arms and back.

Parents and educators play an enormous role as they are the ones who spend the most time with these kids. They are the most influential in their lives. I believe educating both of these groups of people on detrimental effects social media on their children can help tremendously in the fight to control it. If it is possible to prevent and even just monitor this problem at an early age, it will be much easier to prevent them from being a social media addict. If we all knew the harmful effects that social media and internet addiction pose to the children and the society.

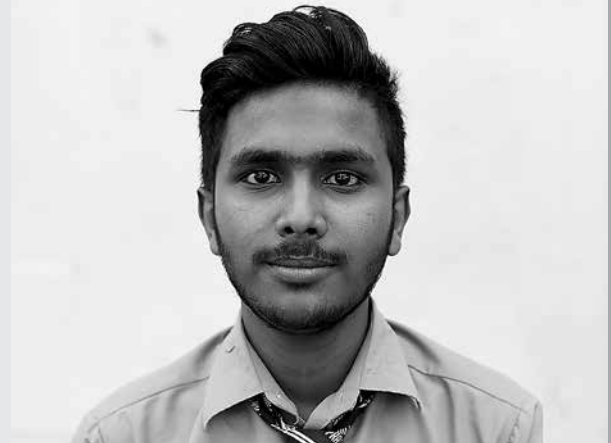

Maybe we should start to take the necessary steps to counter internet risks so that we can all benefit from the endless opportunities offered by the internet and social media.

Memories: Time flies so fast. It seems like it was just yesterday when I first entered Prasad. And today here I am with tons of memories that have become a very beautiful part of my life. Through highs and lows, I feel it's all because of our teachers' undying efforts which helped us bloom and spread our fragrances and also because of my crazy friends who were always there for me whatever the situation it was. Thank you all for making my journey memorable.

Message: Don't just wish for it, work for it!

 Memories: college life is one of the remarkable and lovable times of an individual's life. In college life, one gets a chance to make their own decisions. Talking about my college life. I had enjoyed my college life to the fullest. When I took admission in this college, I was really afraid as all the people who are new to me. R.R Sirs funny jokes, B.S.C mam's unconditional care to me, strictness of V.R.T sir, B.P.P Sirs positive strength, G.T Sirs innocency and his pure heart, his laugh are one of the most remarkable memories in my college life. And also, G.S Sirs funny pronunciation, B.A mam's funny face and N.D Sirs beautiful teaching skills are one of the memories in my college life.
 Message: One of the most important teacher was S.R mam who became friendly with me, who praised me even though I wasn't worthy. This is the college where I learned about discipline and where I became a survivor. and I became survivor because of my teachers. Azel.

Memories:
 Never thought I would feel this but this place is quiet devoid from Hamal's jokes to GG's girls. The lunch time we had together to a few friends I gathered for my lifetime. The fun we had in class to the exams and their results. G's talks to UR's smile. This roller coaster ride has been fun and good memories were made.
Message: When the last bell rings, you might actually miss this place.

Memories:- I remember the first day of college when I was nervous to enter the college premises. The first day of college was good. I met many obstacle during this 2 year phase. The fear of monthly test result was toughest thing in this 2 year memories. I learn about people's personality. I remember the time which I spend with my friend. I'll miss the time when we used to eat khatta in class. This two years of memory will always be in my heart.
Memories- "No matter what people says you have to create memory on your own".

MEMORIES: It's hard to pen all those precious moments that are craved in the walls of prasadi & shall never be forgotten. All I know that the teachers are the best persons ever. they support you enough. SA maam, SR maam can teach you the perfect biology ever. GS sir's not funny yet funny jokes, JPY sir's "stand up", SPS sir's class was the most awesome & GGS sir's laugh, all these 22 half years were worth it. This batch will be called as "Corona Batch" forever cause we stayed for here longer than every other's batch.
MESSAGE: 1st year might scare you, but believe me you will find the most amazing friends & teachers here.

Although two years journey in Prasadi Academy has been like CORONA year to our batch, P.A. was successful to provide us quality education through various sources. I was misinformed that there is no any entertainment but believe me, teachers are very funny enough to make whole class laugh, at the same time, they can make students cry also, asking them to bring bundle of homeworks. I had undoubtedly many of best memories of my life in Prasadi, which I didn't expected. Last but, of course, not the least, thanks to Ms & Rs to make my days memorable in Prasadi.

MEMORIES: These two years, as a PRASADIAN
 has passed in blink of eye. It seems like
 yesterday where we used to feel sleepy in
 physics classes, laugh at SH sir's jokes, hurry
 to eat c-momos, do lots of assignments, listen
 to NB sir's praiseful words. i.e. try it at least try
 and listen to BA mams fluent English. We were
 very lucky to be BPS sir's good student also.
 All the friends I have made in prasadi & the
 moments with them will always be a memory.
 All the memories like gossiping, laughing,
 cracking jokes will also be missed.

MESSAGE: Do what you want to do not what
 other want you to do

 Email: sukshee2003@gmail.com
 Memories:

loving the college from the core of the heart & not wanting to leave, life happened. PRASADI, an important & interesting chapter of my life, taught me the value of 20 minutes lunch break, coconut like teachers, specially GT sir & BPP sir (hard from outside, soft and sweet from inside), ways to enjoy life while taking pressure, making memories with friends & capturing them in heart rather than mobile phones (since they are prohibited in college lol) etc. I want to thank myself for choosing Prasadi because I am pretty sure, none other college would give me chance to experience these amazing things♥♥♥

 Email : ankitbhn@gmail.com
 Memories : Ahh... the memories! Best two years of my life. I could go on and on, describing the memories I made with my fellow prasadians. This piece of paper is too small to describe everything I went through these two years. If it is to be asked in exam then I could write 10-12 pages describing the memories I made here in prasadi. The reason why I enjoyed the most, is the way I intend to live life to the fullest and that's the thing I would like to suggest to my juniors, always find a reason to be happy. Be optimistic, not pessimistic. Remember, there's always more to life than this. *AB*

 Grade: XII Section: R11 Code no: 10574
 Email: nehushah12@gmail.com
 Memories: when I started the journey, I was very much nervous as all of us have heard that prasadi is strict and is quite tough to be. But it was nothing like that. Every day had its own beautiful memory. The 2nd unit was in chemistry will always be memorable. You will definitely learn to be punctual!

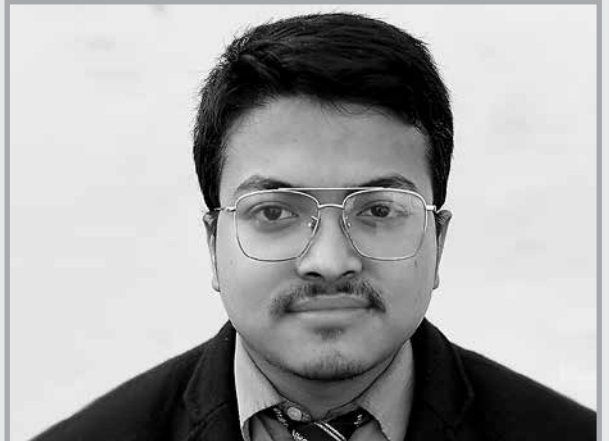

Message: Don't be afraid of prasadi rules. As rules are made to be broken. Just go with the flow

Memories: 30 minutes break, then after rushing toward class and finding teachers waiting for us. Making weirds excuses on hw submitting day. ALSir's Jokes, SH Sir's smile and SKS Sir's cat walk all are the good memory. Last day of college thundering, lightening and the heavy rain fall and we friends, I'm gonna miss that message - live and enjoy the present because it is present to you

 Memories: Prasadi is the best decision i ever made in my life. It was fun studying in 'D7' section when I was in grade 11. The classmates were very friendly and helpful. We made lots of memories together in 'D7'. Grade 12 was short but full of new experiences. And it was blessing to learn from teachers like Sundar Hemal sir and RPY sir. I am going to miss those days in this college.
 Message: Thankyou Prasadi and also 'D7'. It is easy when you have proper dedication.
 Signature: Aashutosh

Memories: Memories that I made during the 2 years studying in Prasadi are unforgettable & heartwarming. Especially during online classes we used to close the camera & teachers used to get irritated as well as they were equally forgiving. Every class used to be fun. Talking with friends in a class was the best thing. No matter how much suffering we went through, we never wanted to let go of these memories.
 Message: Enjoy each & every minute & always keep smiling.

Name- Shubhechha Adhikari
Grade- XII Sec- Q1 Code- 9917
Email- subuadhikari1997@gmail.com

Memories- "Prasadi Academy" a high school where students are afraid to join because of the strict rules and regulations they have. When I was first told by my parents to join Prasadi, my reaction was as same as every normal students would give- confused and angry. But as time went by, I realized it's not that bad either. The rules are strict but, it teaches you the value of time and helps you become a better person. I made some really good friends, the teachers were helpful, classes were fun and how can we miss talking about C.momo when it comes to "memories in PRASADI" Fridays were best I promise. The only thing I complain about is, this batch missed the dance of DKA Str, which means sadly there was no picnic!

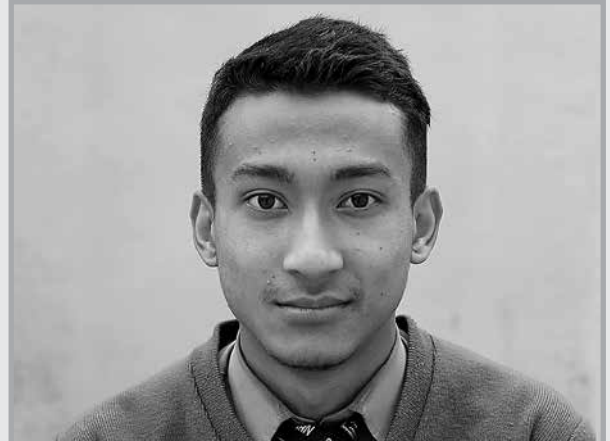

Message- Make notes, make friends & study as well, have fun. Unknowingly, these two years will teach you many things about life!

Krihika Rimal
Q2 12 Roll no-4

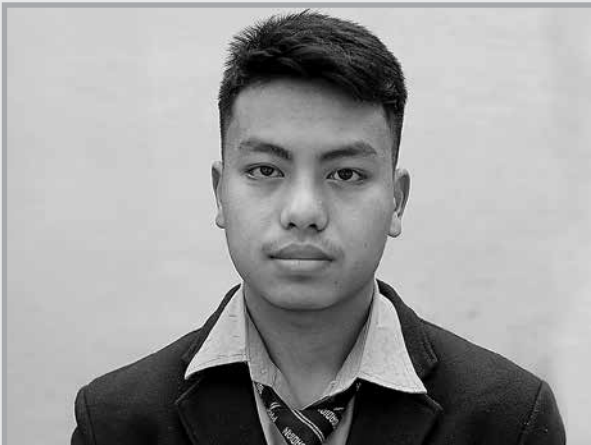

We all know experience is the greatest teacher of all. Studying here in Prasadi has given me a lot of experiences both unfortunate as well as fortunate.

Life gives us experiences that are most helpful for the evolution of our consciousness. I believe that my experience here in prasadi has helped me out grow as a person no matter how labourious the situation was for me. Love yourself!

Personally, studying in Prasadi was a great experience. It taught me to fly high, yet to lay low. I will forever be grateful for the teachers who worked hard and gave it their all to provide us with so much knowledge. Thank you for the great memories and even better friends.

MISTAKES IN SCHOOL LIFE TAUGHT A VALUABLE LESSON

- Fr. Amrit Rai, S. J.

The beauty of human life is we are not finished products. A toothbrush is a finished product. Once it comes out of the factory no way we can make it better. However, in case of human beings each day we grow and make ourselves better. The key to our growth is the mistakes we make and the life lessons we learn from them. We are vulnerable. No one is immune to making mistakes. Therefore, Roy H. Williams, author and marketing expert says, "A smart man makes a mistake, learns from it, and never makes that mistake again".

Learning from a mistake is a must. Not learning from a mistake has several consequences, like inflicting unavoidable stress on ourselves and on others, and we risk losing people's confidence and trust in us.

To learn from a mistake we must admit that we've made it. We must take ownership of it. Let those who need to know, know it and sincerely apologize. Apologizing takes courage, but it's far better than to hide our mistake or worse to blame others for it. In the long run, people will remember our audacity and integrity long after they've forgotten our original mistake. If, however, they hear of it from other source, our reputation will suffer and we may not get another chance to learn.

The way we view our mistake determines the way we react to it, and what we do next. It is natural that initially out of shock we view our mistake negatively and we feel guilty. However, if we take it positively, we will motivate ourselves, and we will be more knowledgeable and resilient. What I called my mistake yesterday, today I call it my experience. Our attitude plays a significant role in how we view our mistake and how we react to it. If we have 'growth' attitude, we see a mistake as an opportunity to grow. If we have 'fixed' attitude, we believe we cannot improve and get fixated. Therefore, instead of beating ourselves up, we should pause, reflect and think how we can gain from our mistake.

To err is human. Therefore, we should not punish ourselves unduly for the mistake we make. It can be a great opportunity to learn, develop and grow. We just need to learn from it and put that lesson into practice. Let us remember the saying, 'learn from yesterday, live for today, and hope for tomorrow'.

MESSAGE FROM SCHOOL CHIEF

Education is for improving the lives of others and for leaving your community and world better than you found it.

- Marlan Wright Edelman

With the aim of developing a healthy individual and society, Prasadi Academy has been imparting quality knowledge since 2055 B.S. It pleases me to share that each program brings about a perfect balance of academic and practical work experience using proven learning methodology and technology. Our faculty members are committed and highly dedicated to developing the potential of each student. Also the infrastructure, teaching aids and facilities at Prasadi Academy are designed to meet the contemporary need of science and management education that prepares every student to face the real world challenges. In addition, Prasadi Academy is not only committed to provide quality education, It also ensures healthy and fun learning educational experience, friendship and extracurricular activities.

Truly I applaud the entire faculties and administrative staff for their contribution and cooperation in the journey of producing globally competent citizens and future leaders. I am confident, we will continue to make more dedicated effort and excellence in academies in the days to come.

With thanks and best regards
